(Deeper Muscles)

Anterior Head and Shoulders

Anterio-lateral View of Head and Shoulders

(Pectoralis major and Deltoid removed)

Masseter (cut)
(point of Insertion)

Temporalis

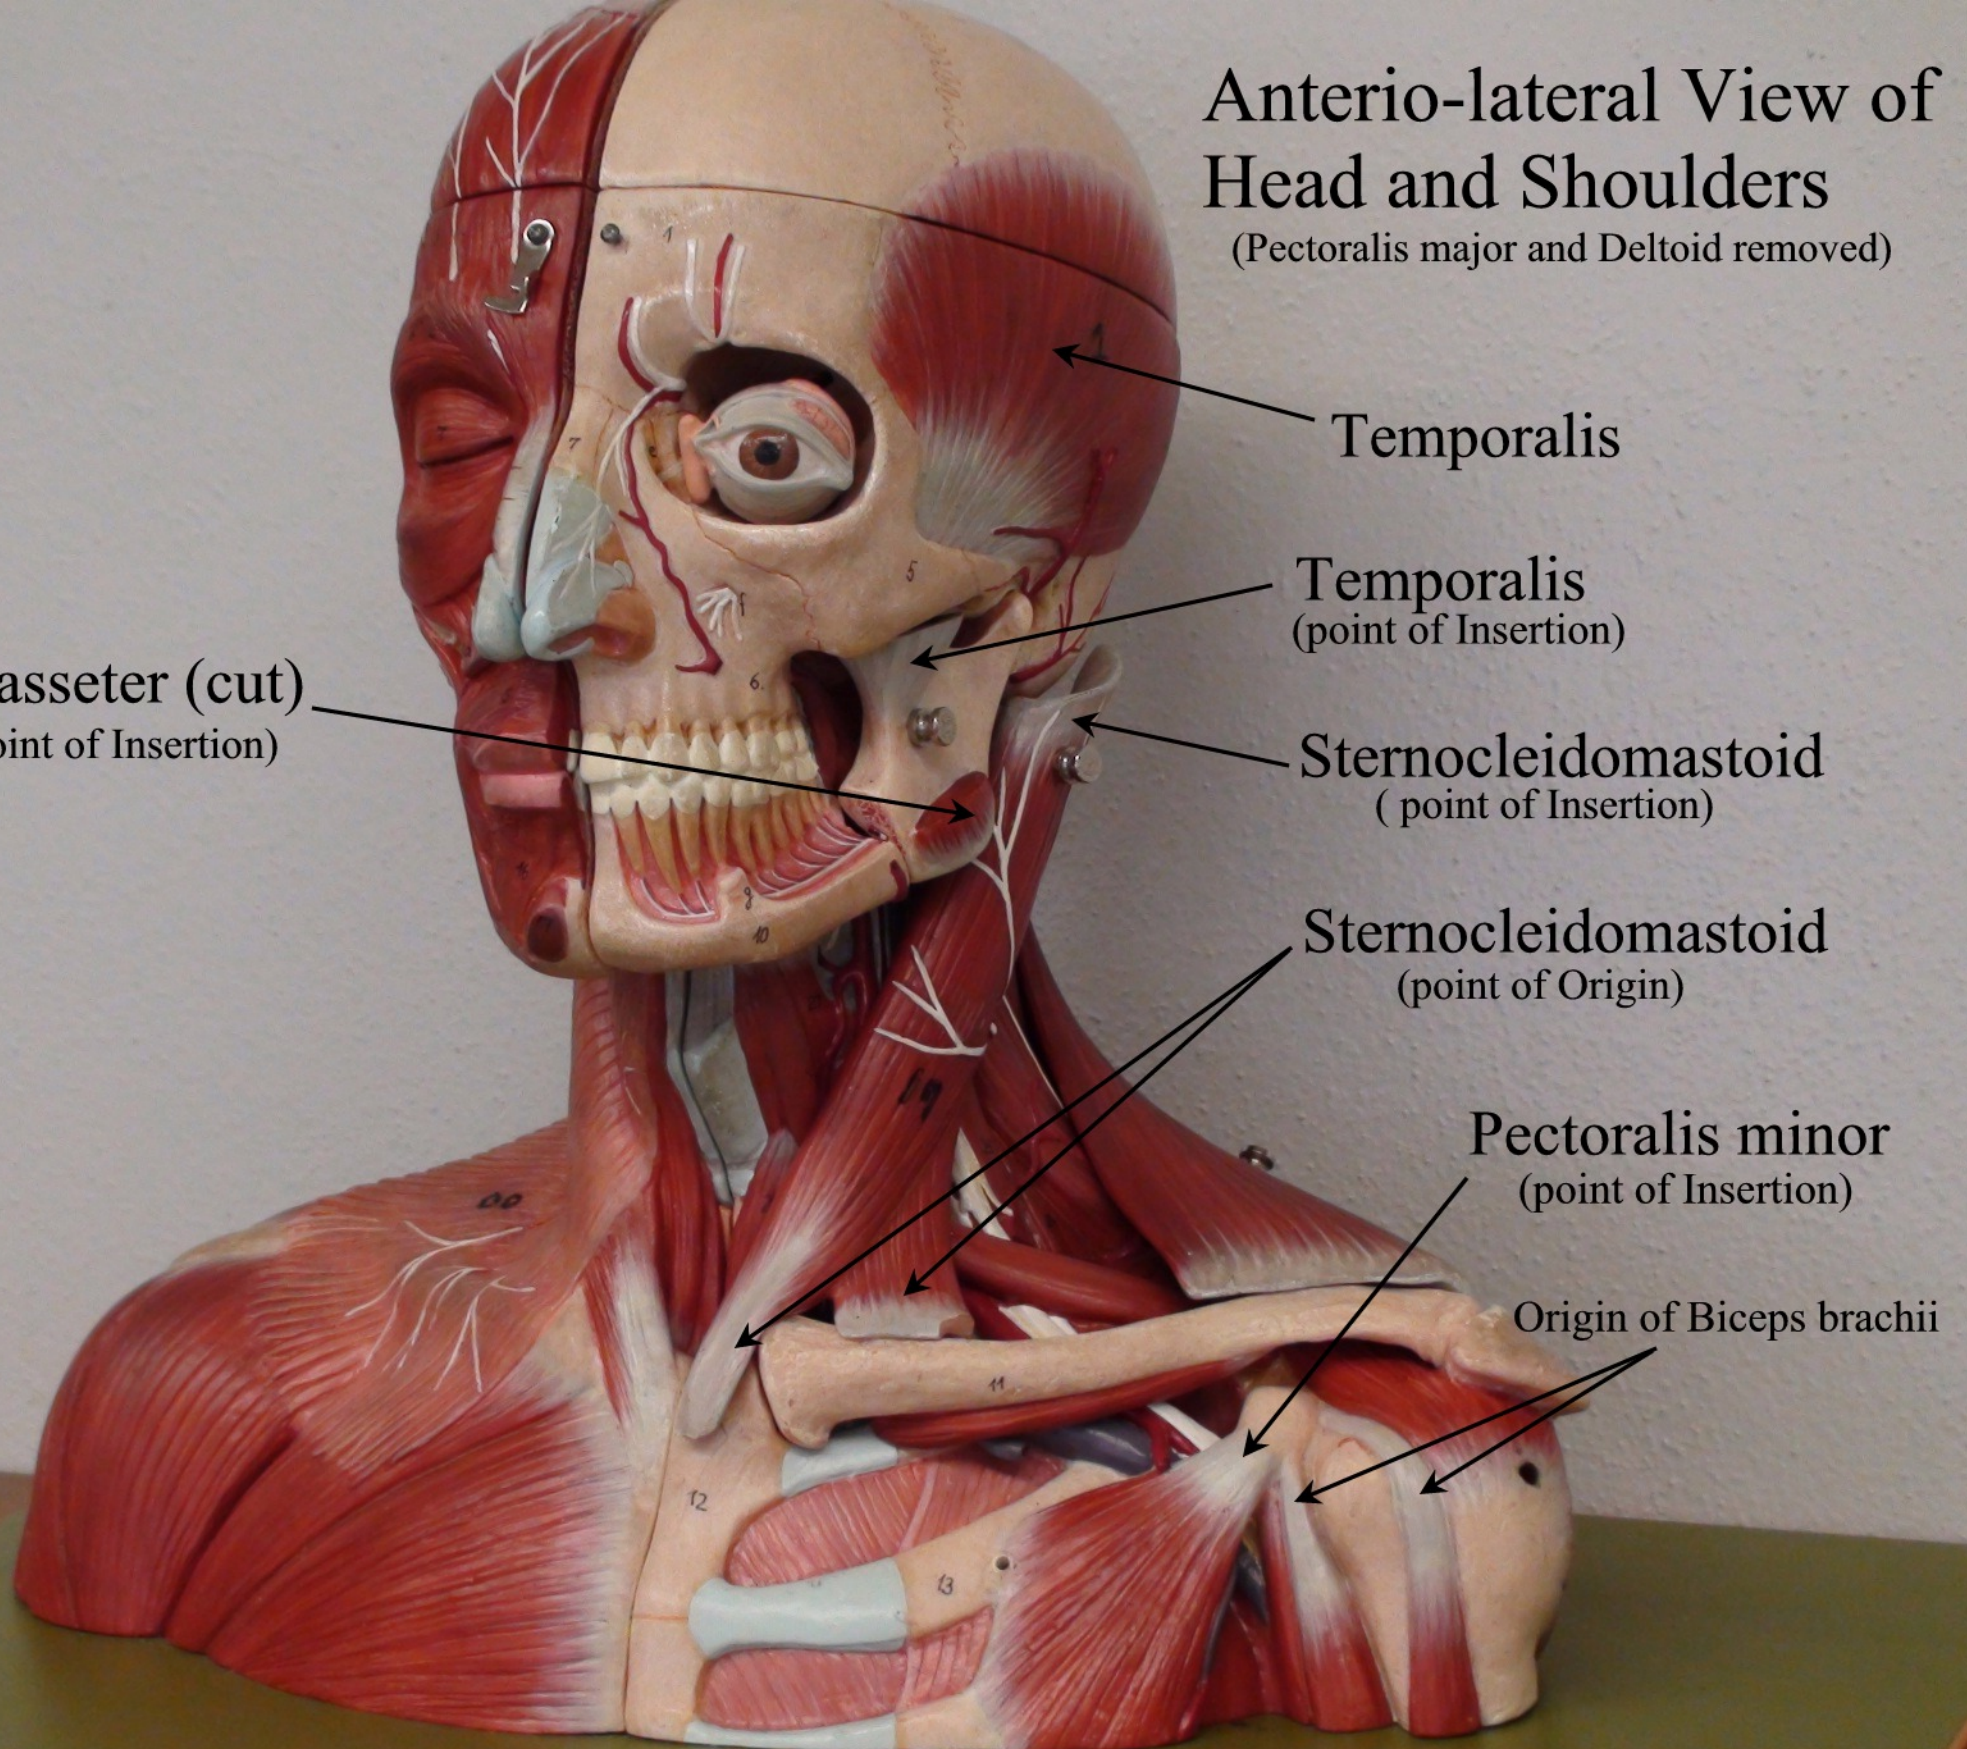

Temporalis
(point of Insertion)

Sternocleidomastoid
(point of Insertion)

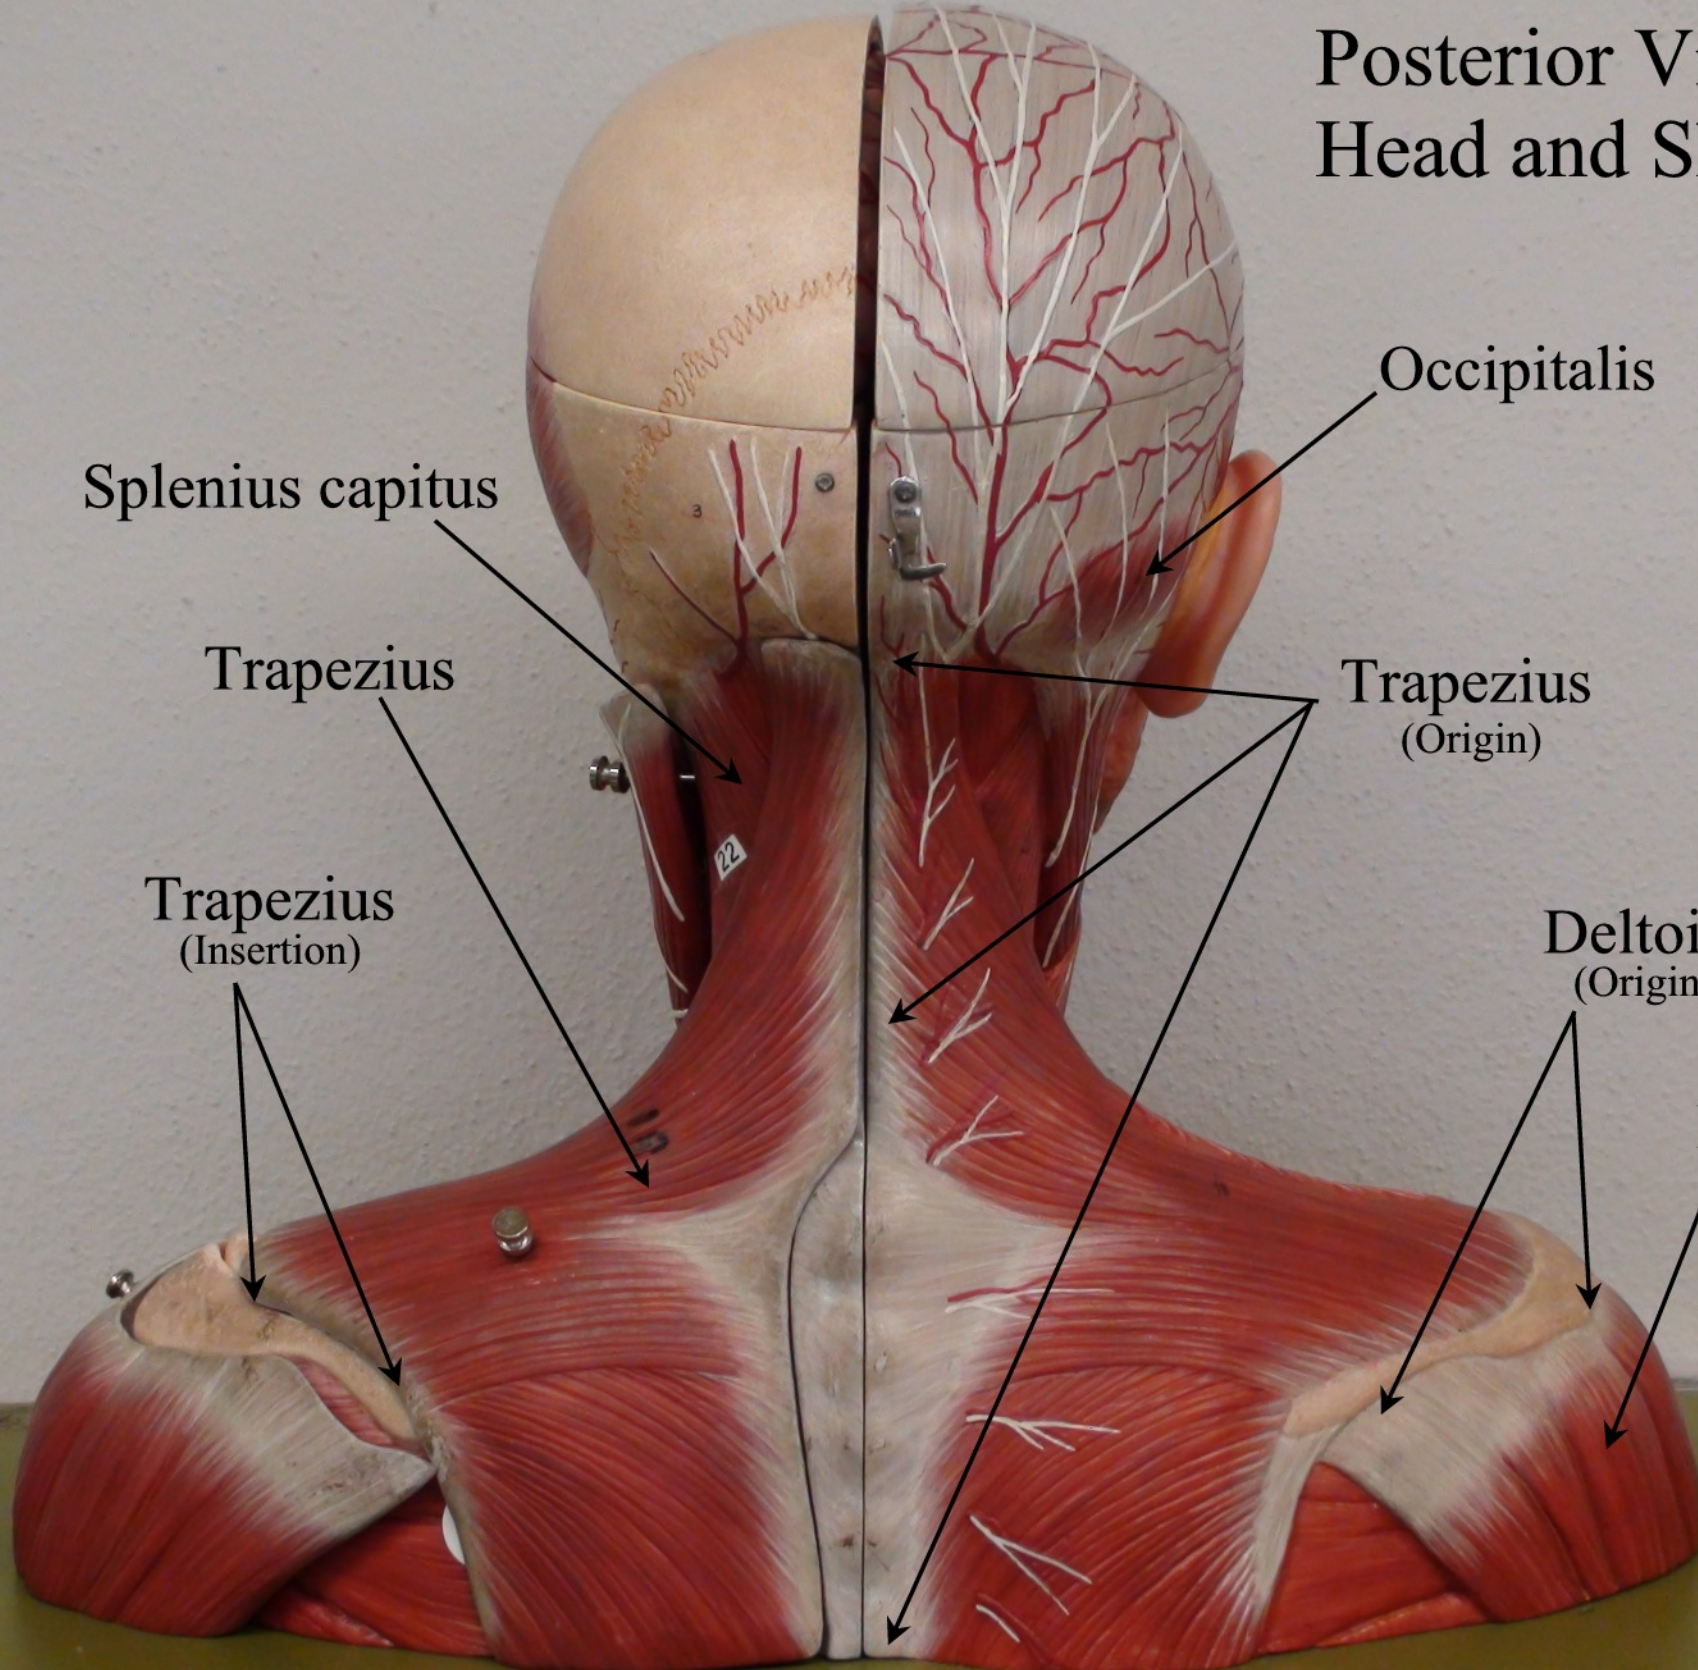

Sternocleidomastoid
(point of Origin)

Pectoralis minor
(point of Insertion)

Origin of Biceps brachii

Posterior View of Head and Shoulders

Splenius capitus

Occipitalis

Trapezius

Trapezius (Origin)

Trapezius (Insertion)

Deltoid (Origin)

Deltoid

Postero-lateral View of Head and Shoulders

(with Trapezius and Deltoid removed)

Temporalis

Sternocleidomastoid
(point of Insertion)

Splenius capitus

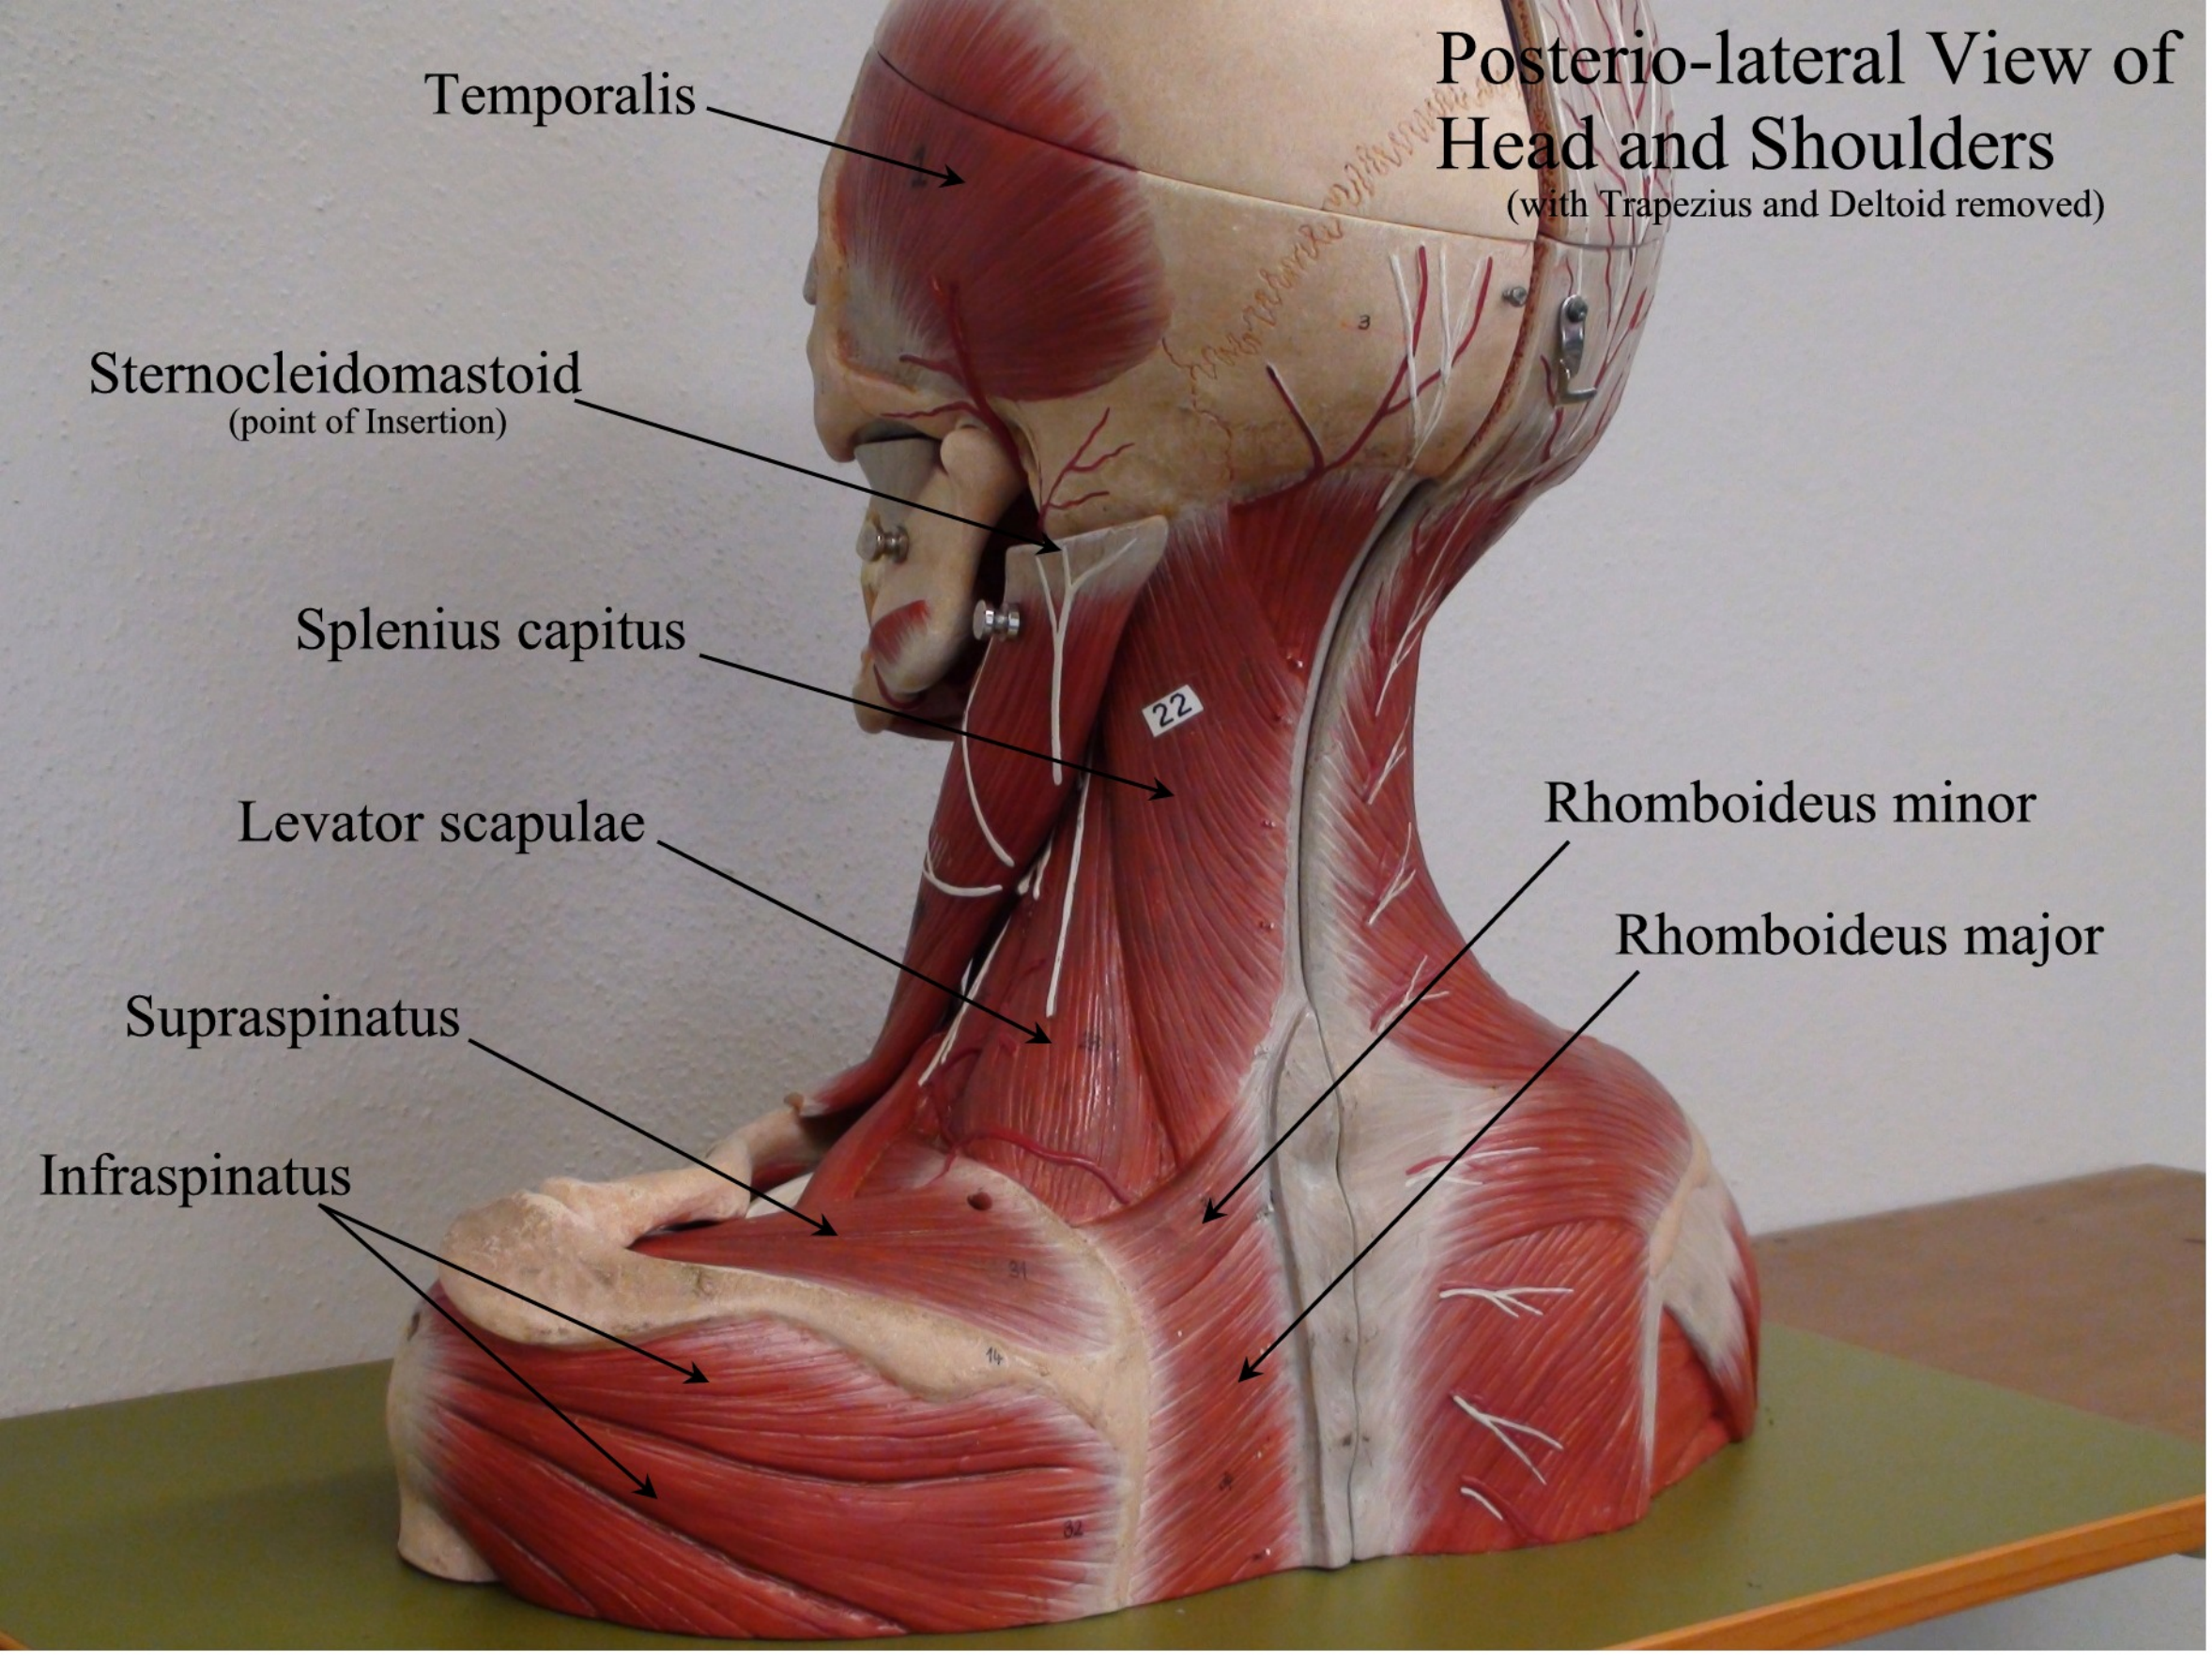

Levator scapulae

Supraspinatus

Infraspinatus

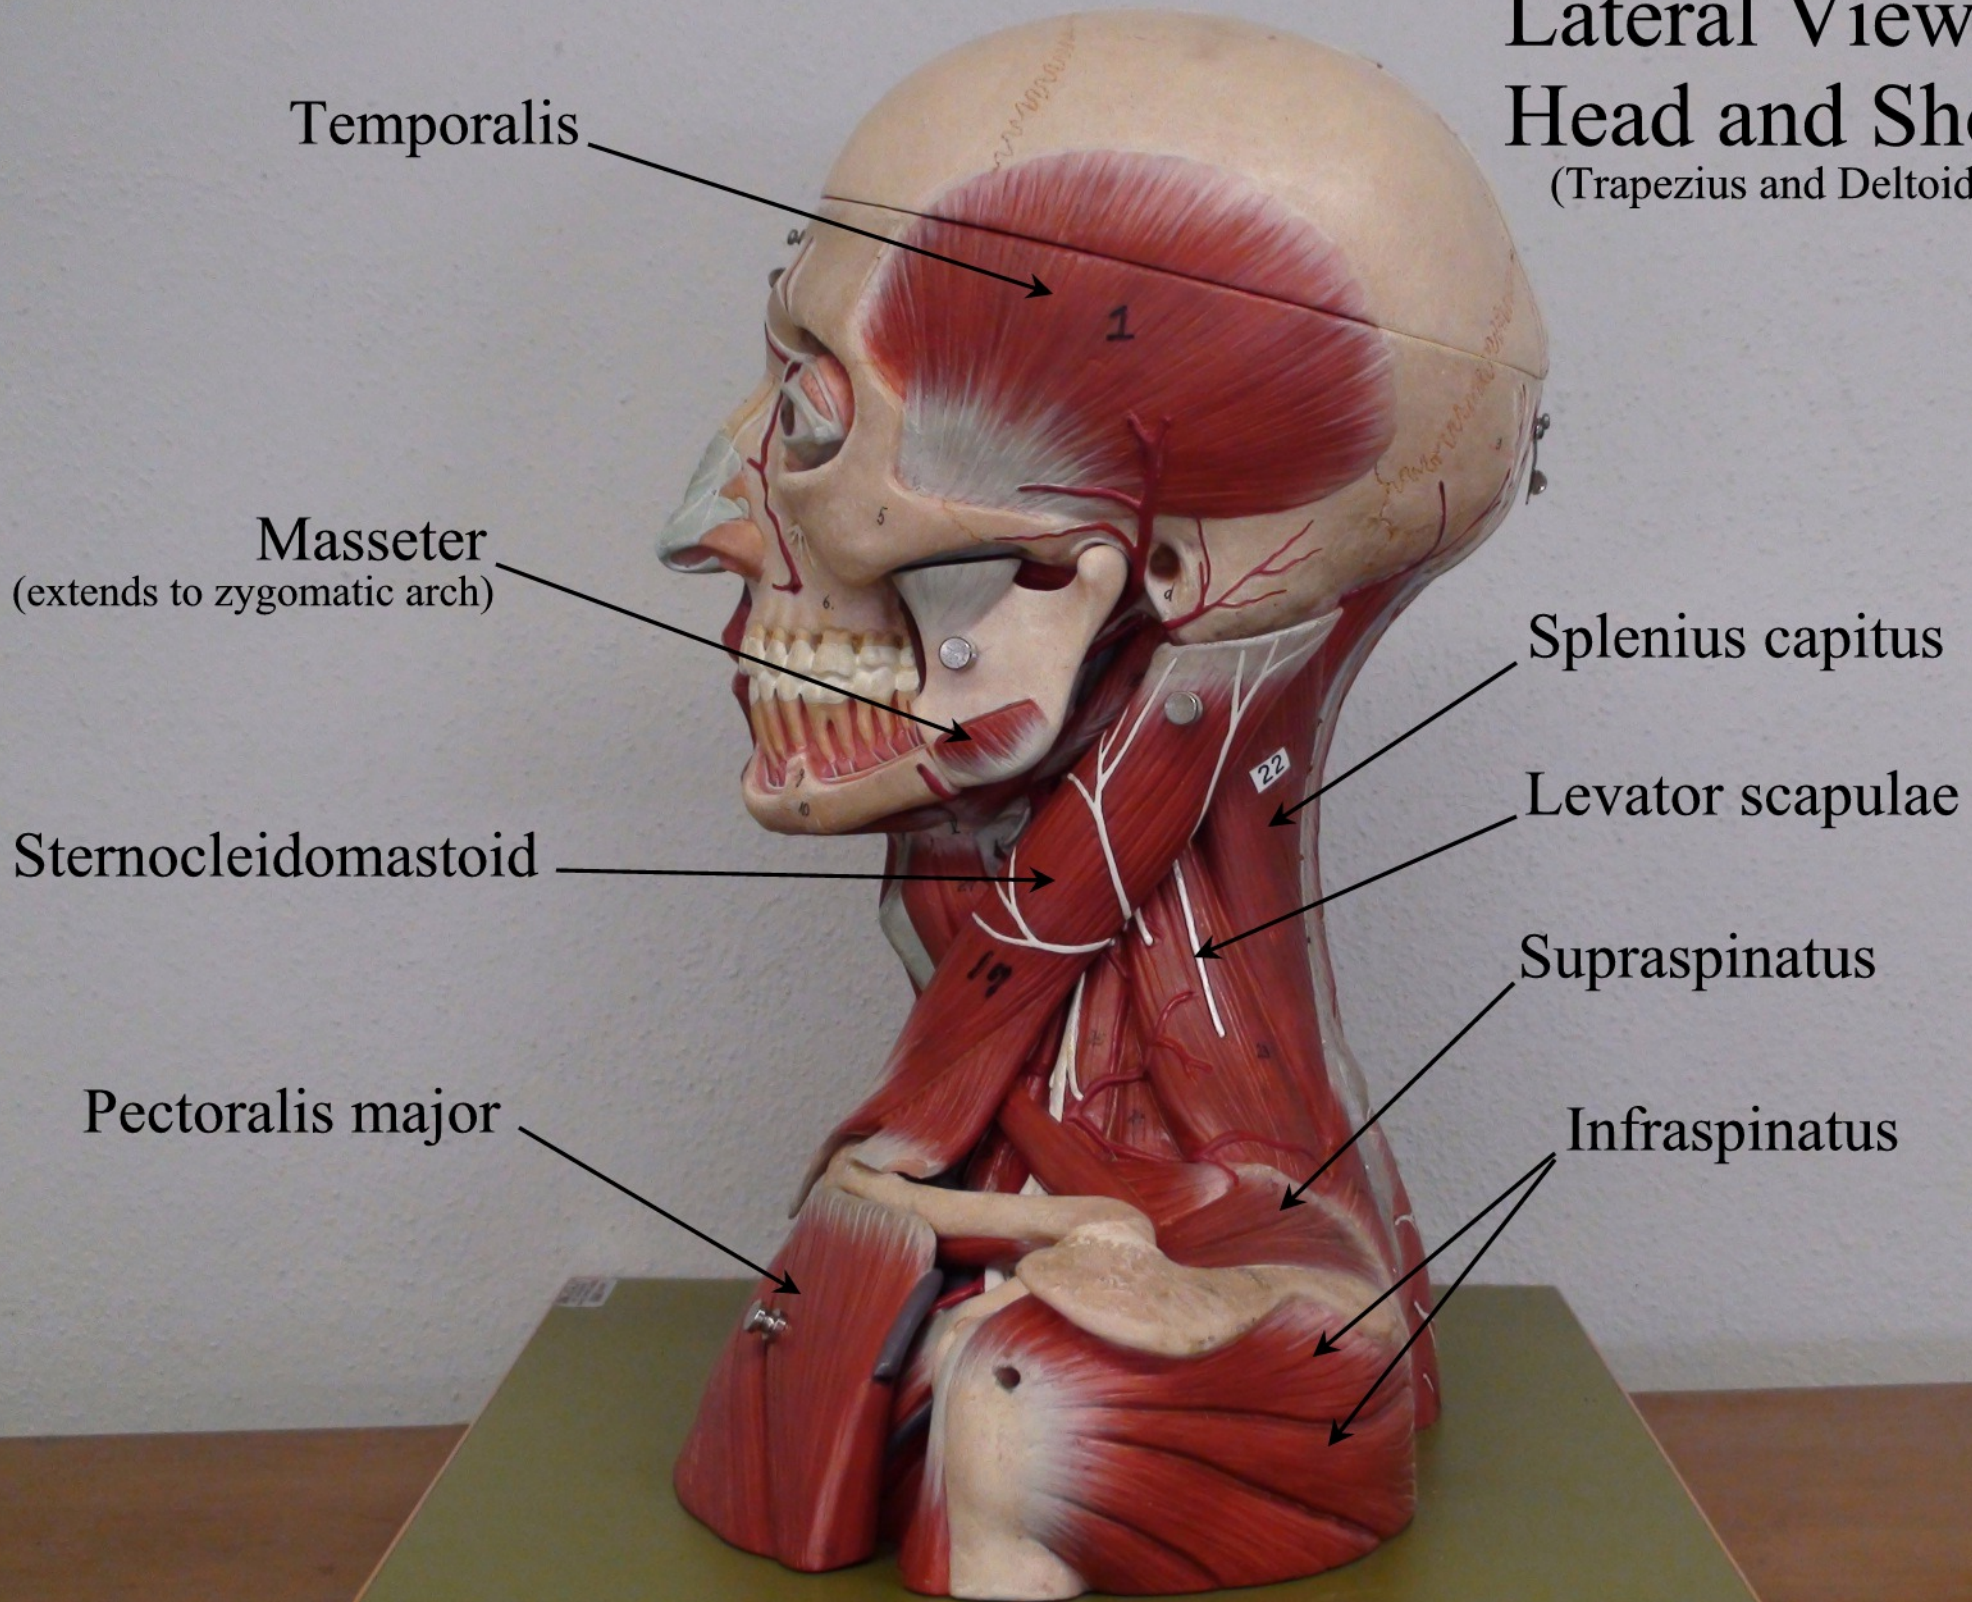

Rhomboideus minor

Rhomboideus major

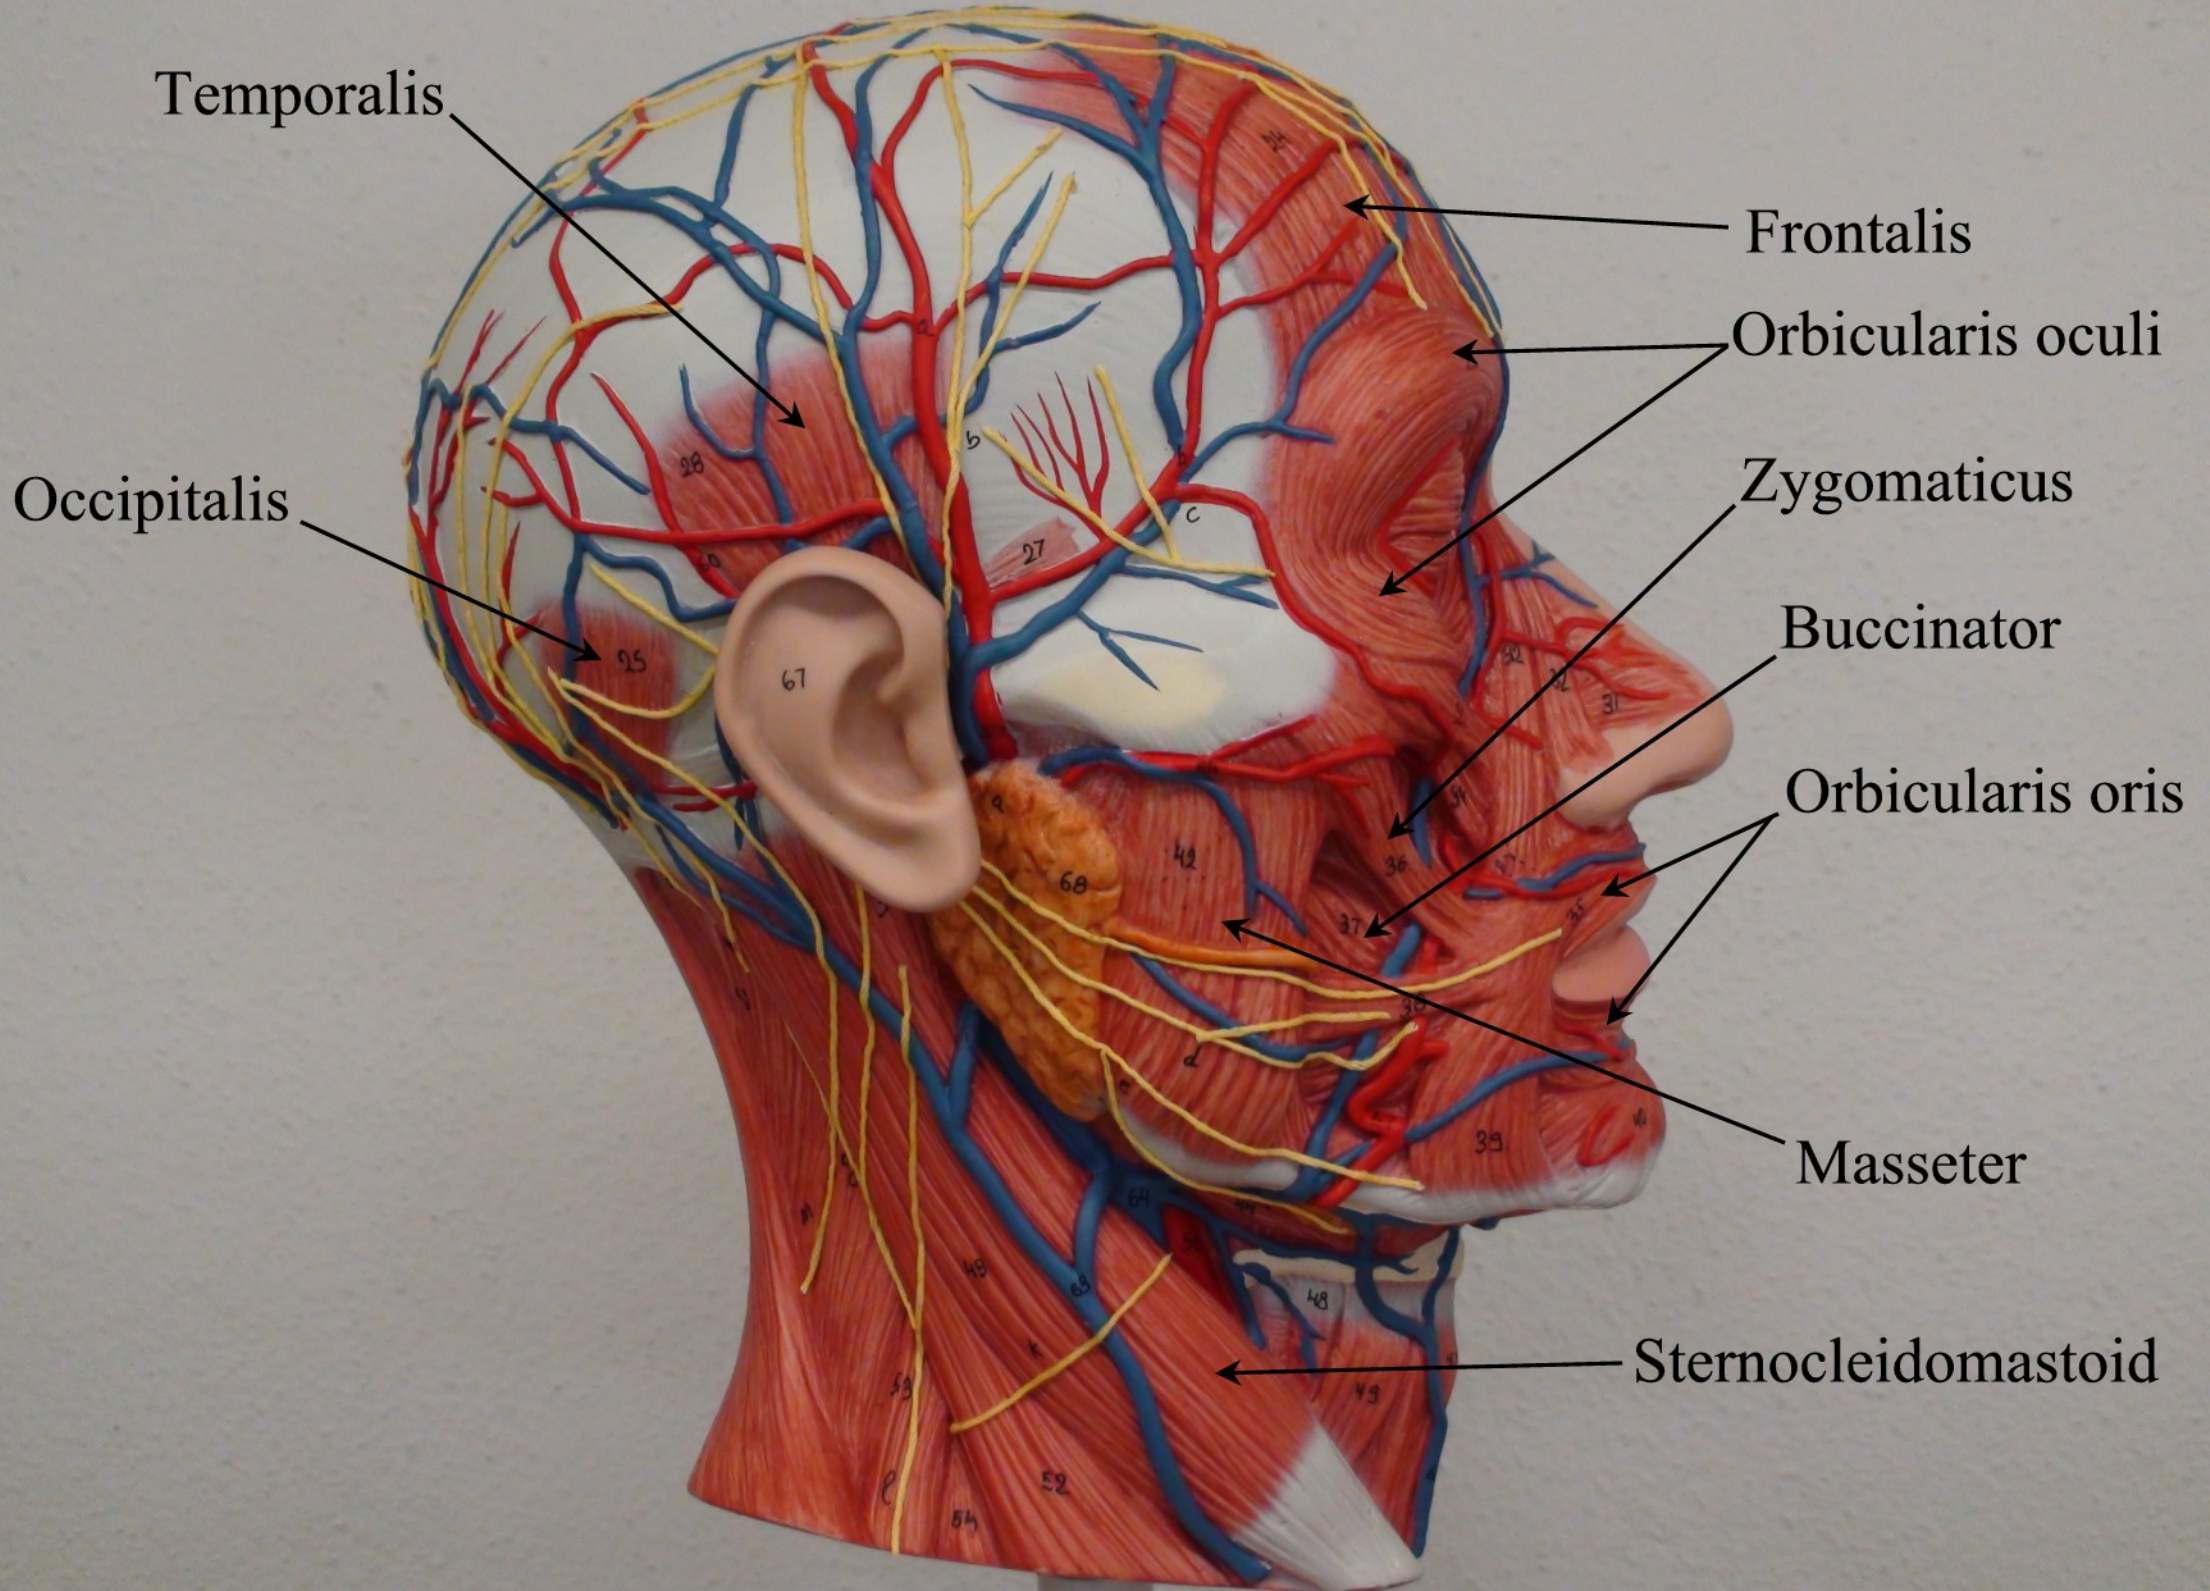

Lateral View of Head and Shoulders

(Trapezius and Deltoid removed)

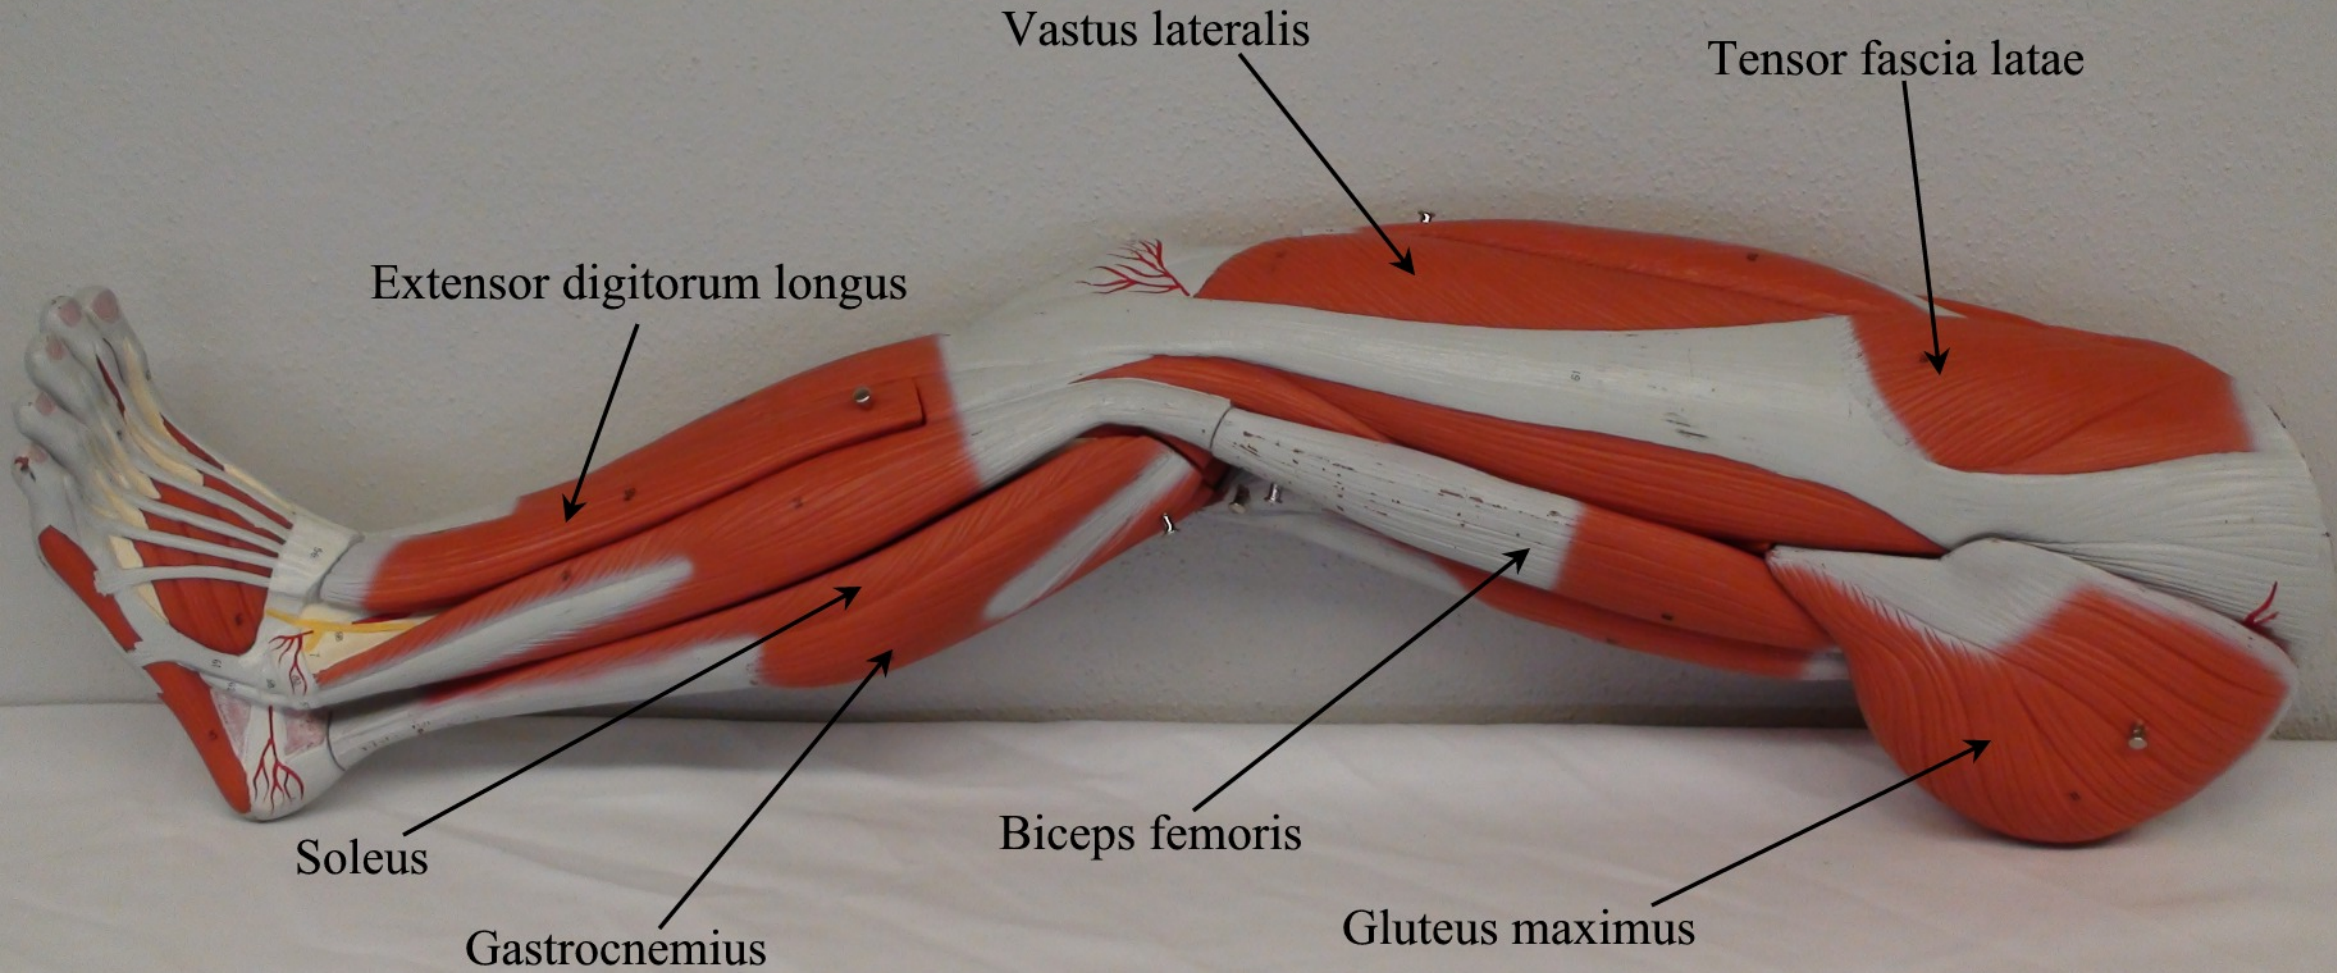

Lateral View of the Head

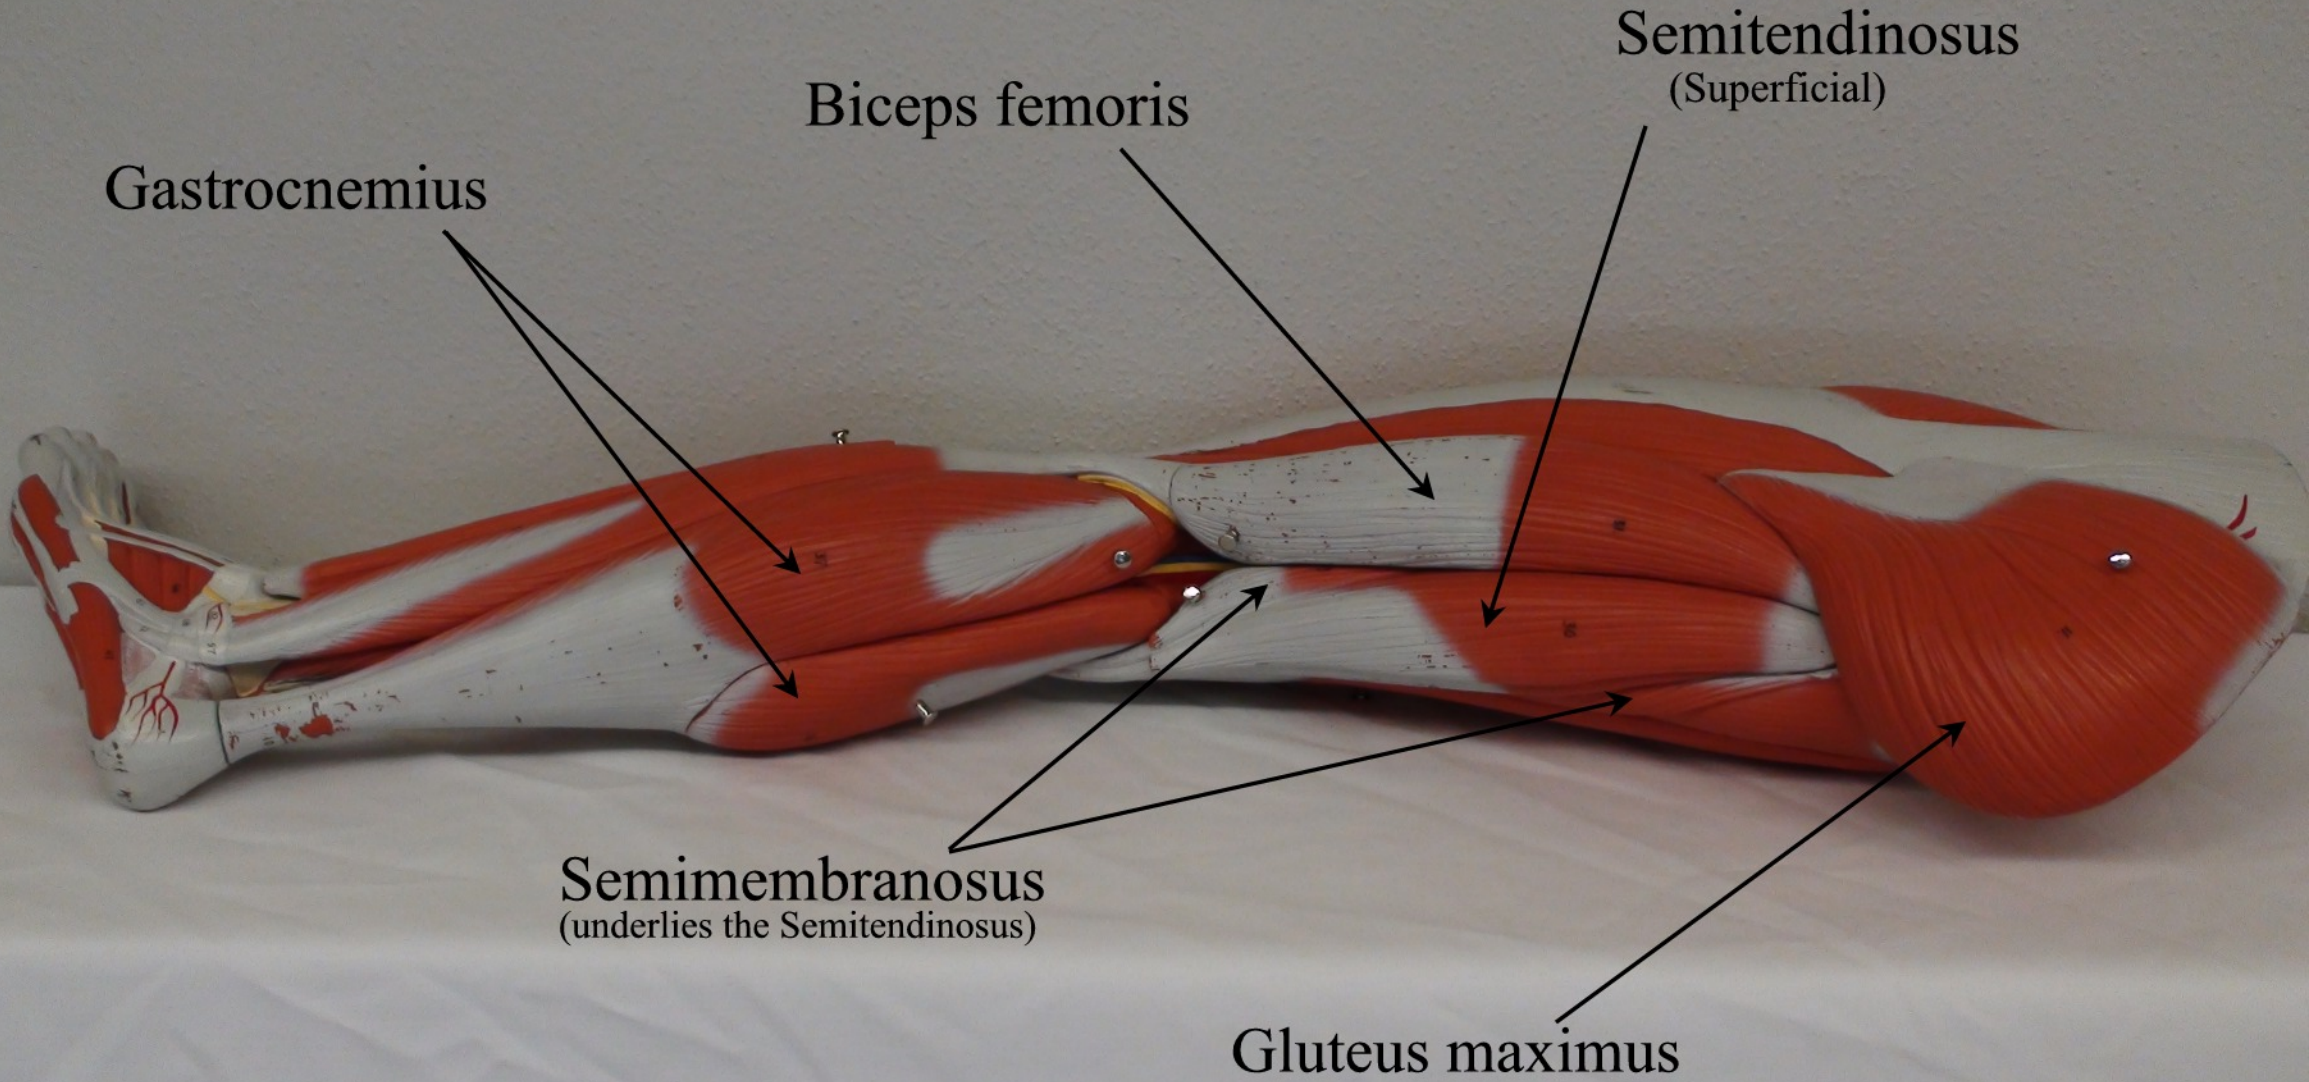

Leg

(Lateral View)

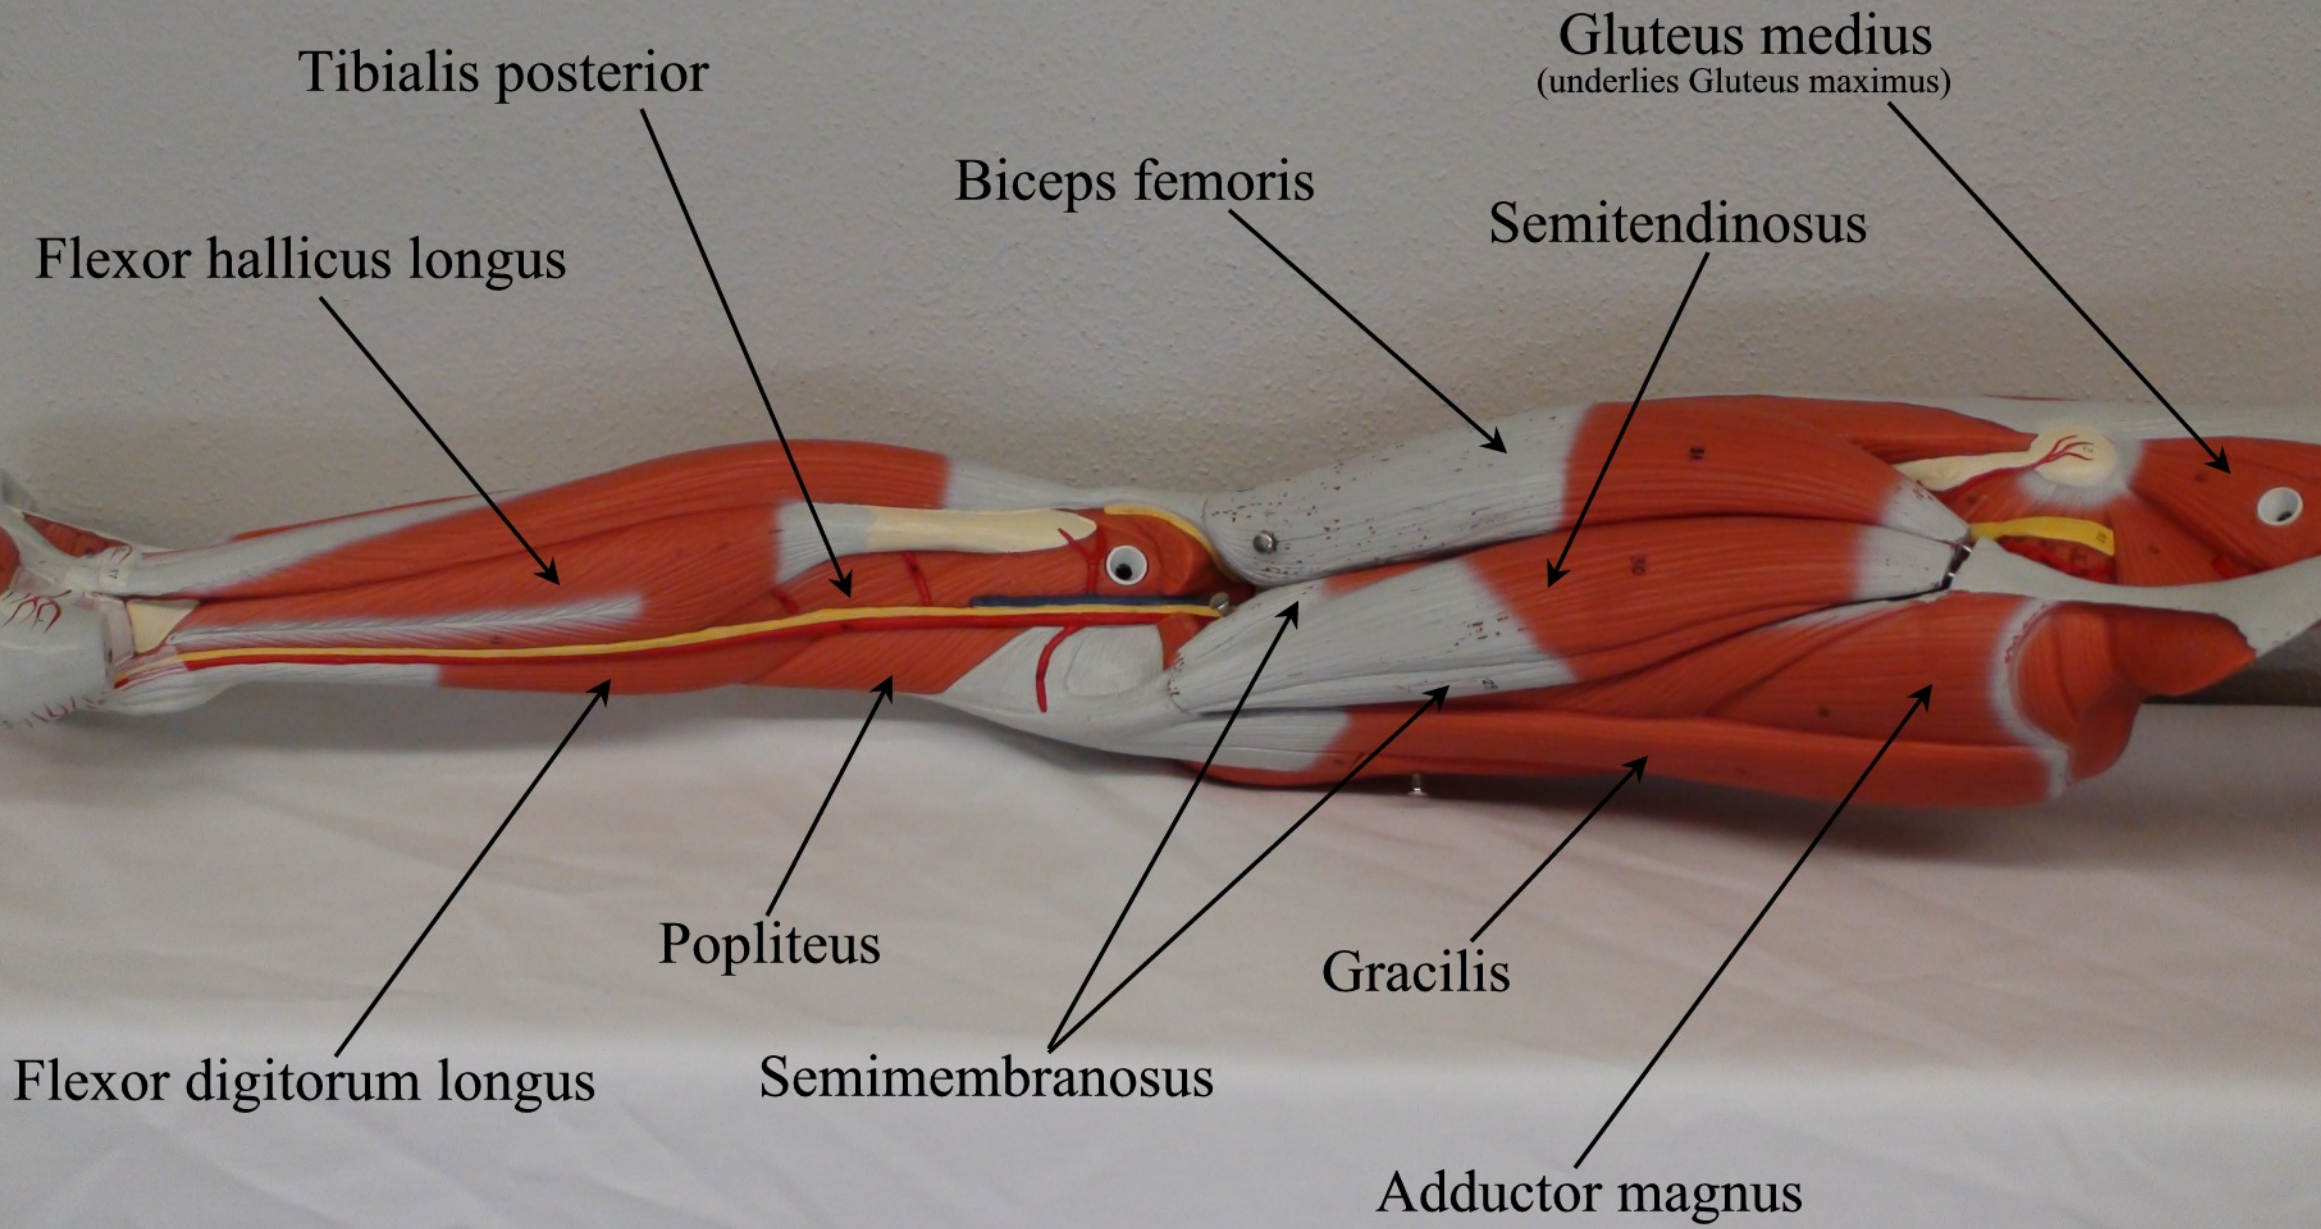

Leg

(Posterior View)

Leg

(Posterior View with Gastrocnemius and Gluteus Maximus removed)

Tibialis posterior

Flexor hallucis longus

Flexor digitorum longus

Popliteus

Semimembranosus

Biceps femoris

Gracilis

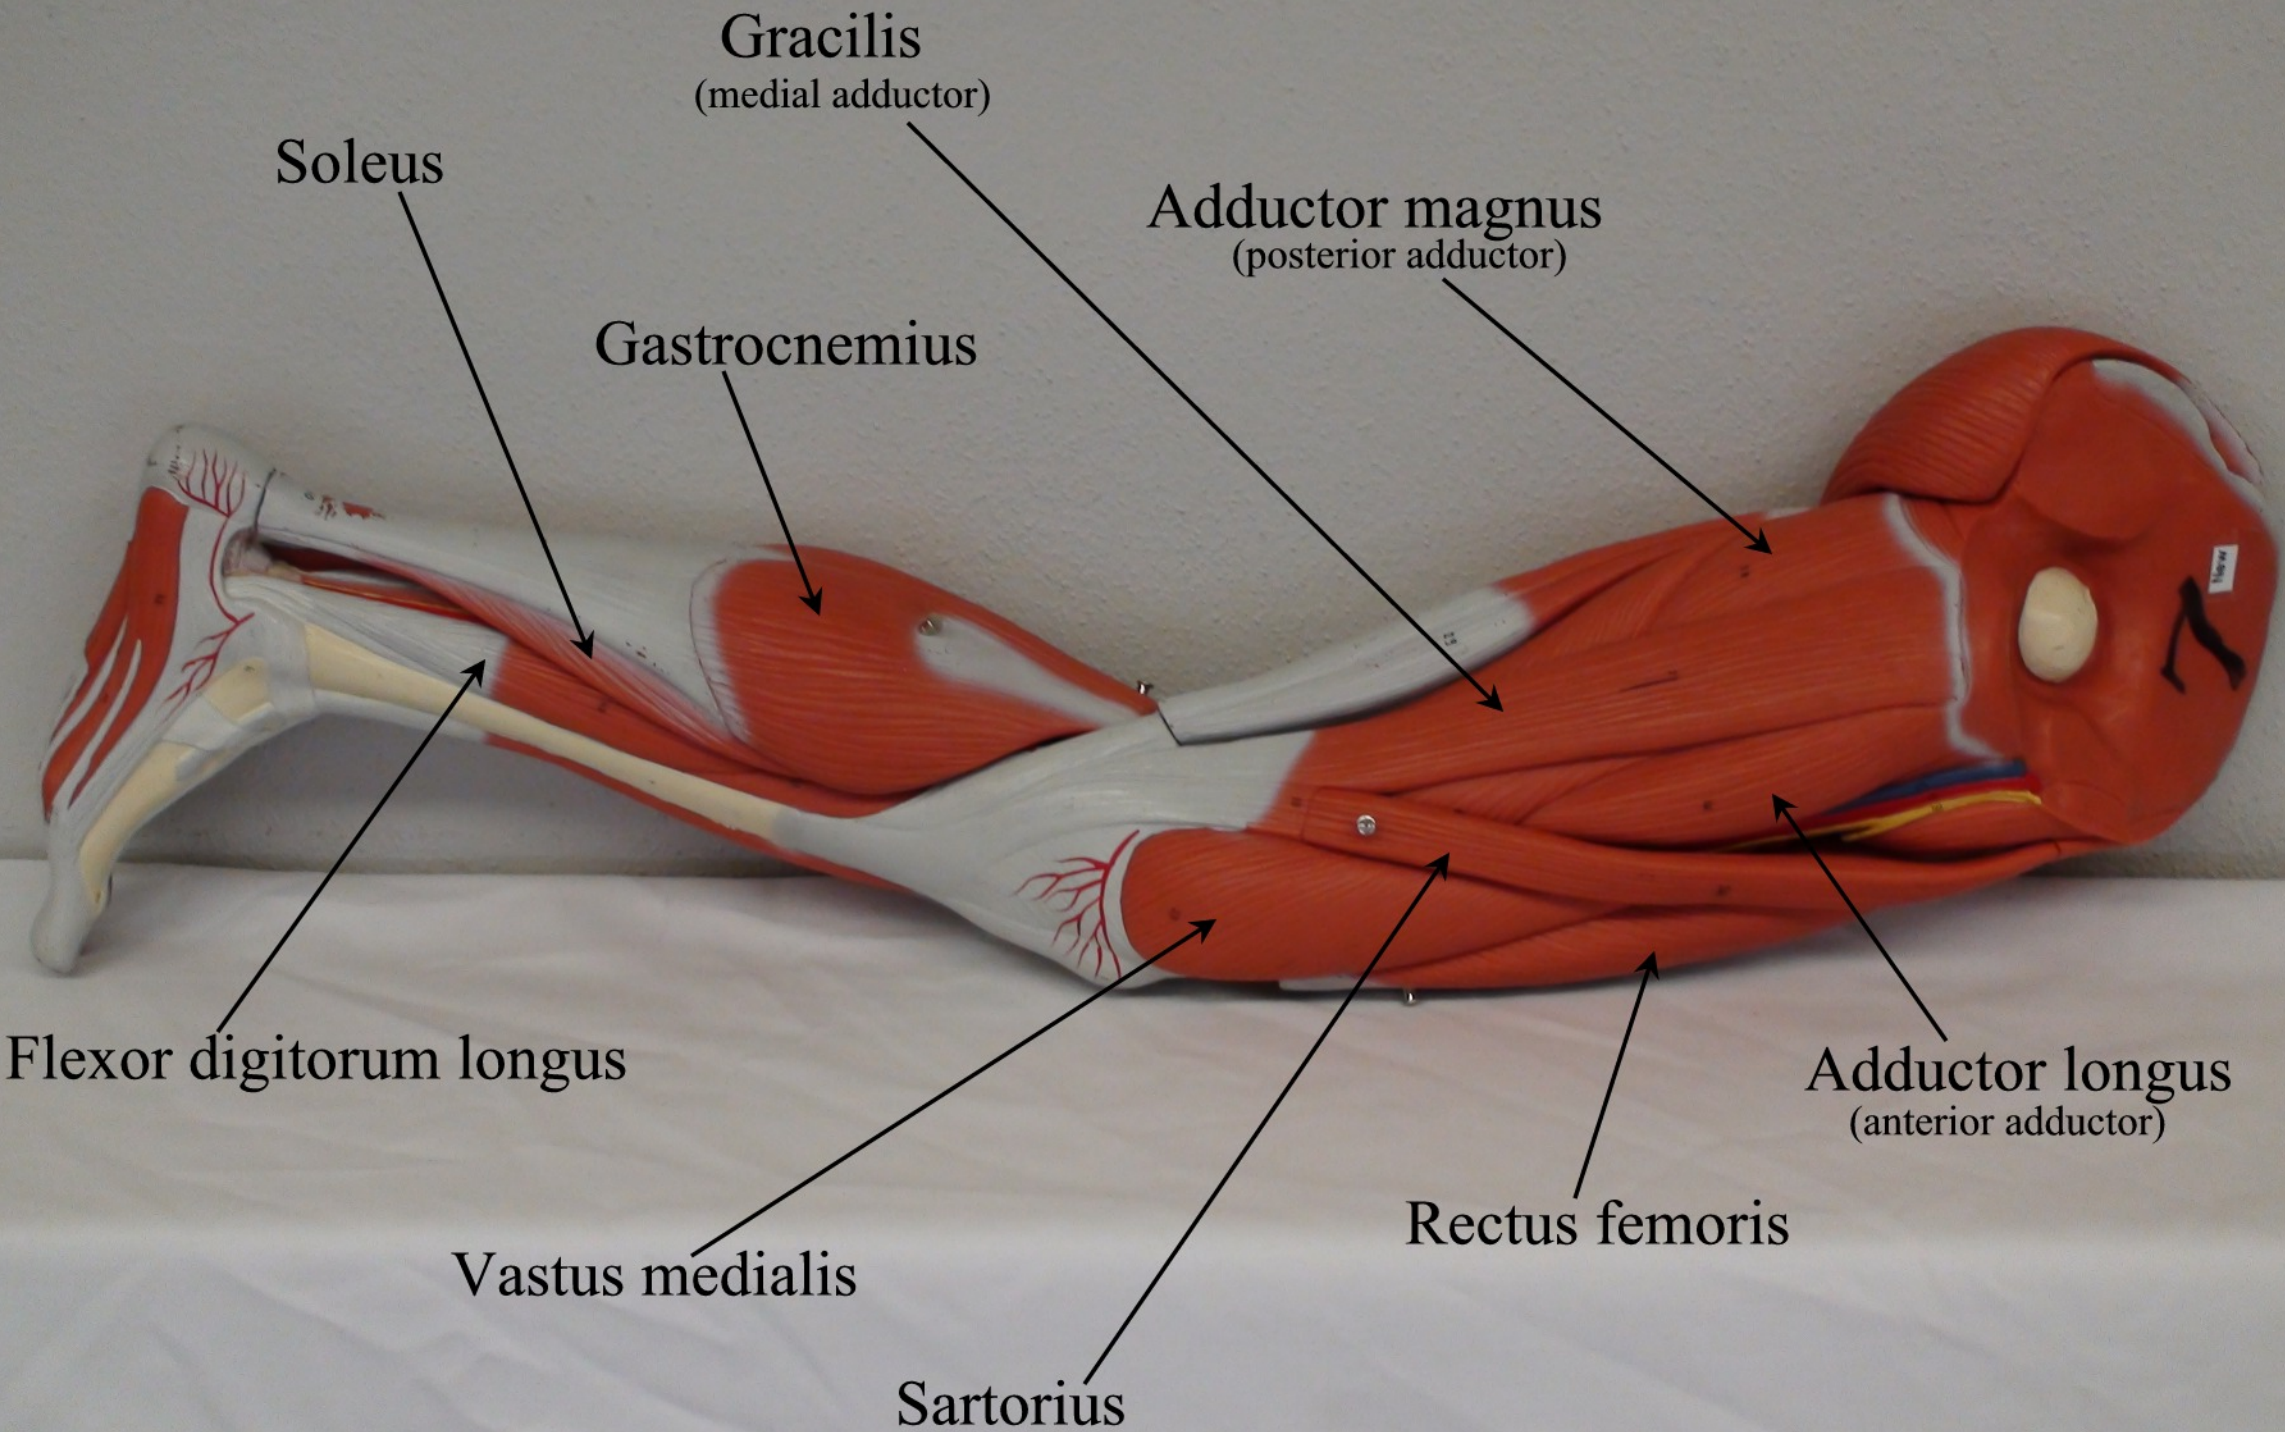

Adductor magnus

Gluteus medius
(underlies Gluteus maximus)

Semitendinosus

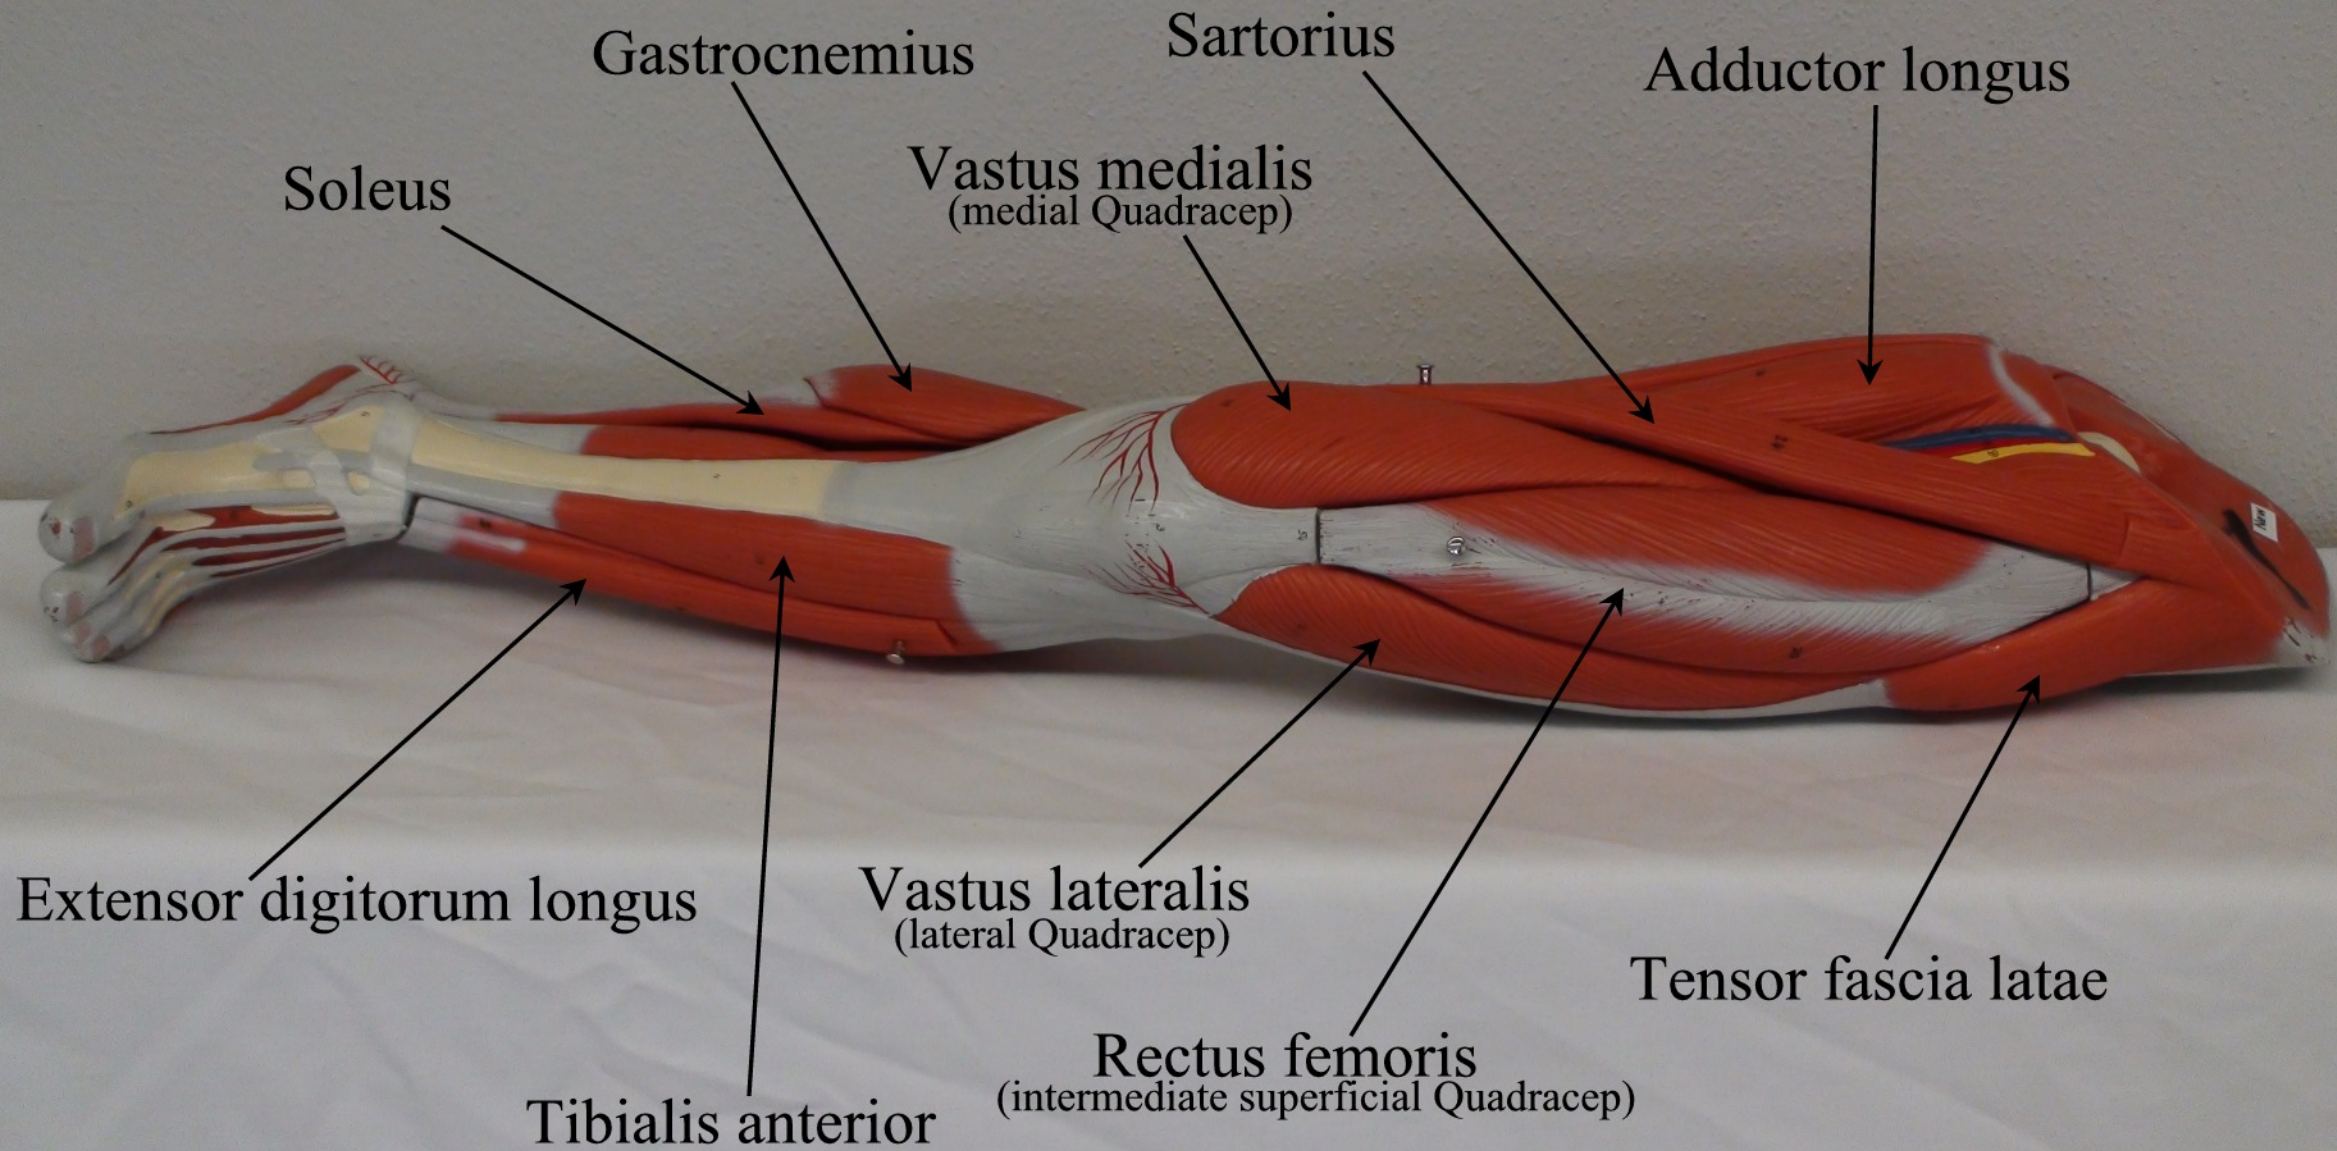

Leg

(Medial View)

Leg

(Anterior View)

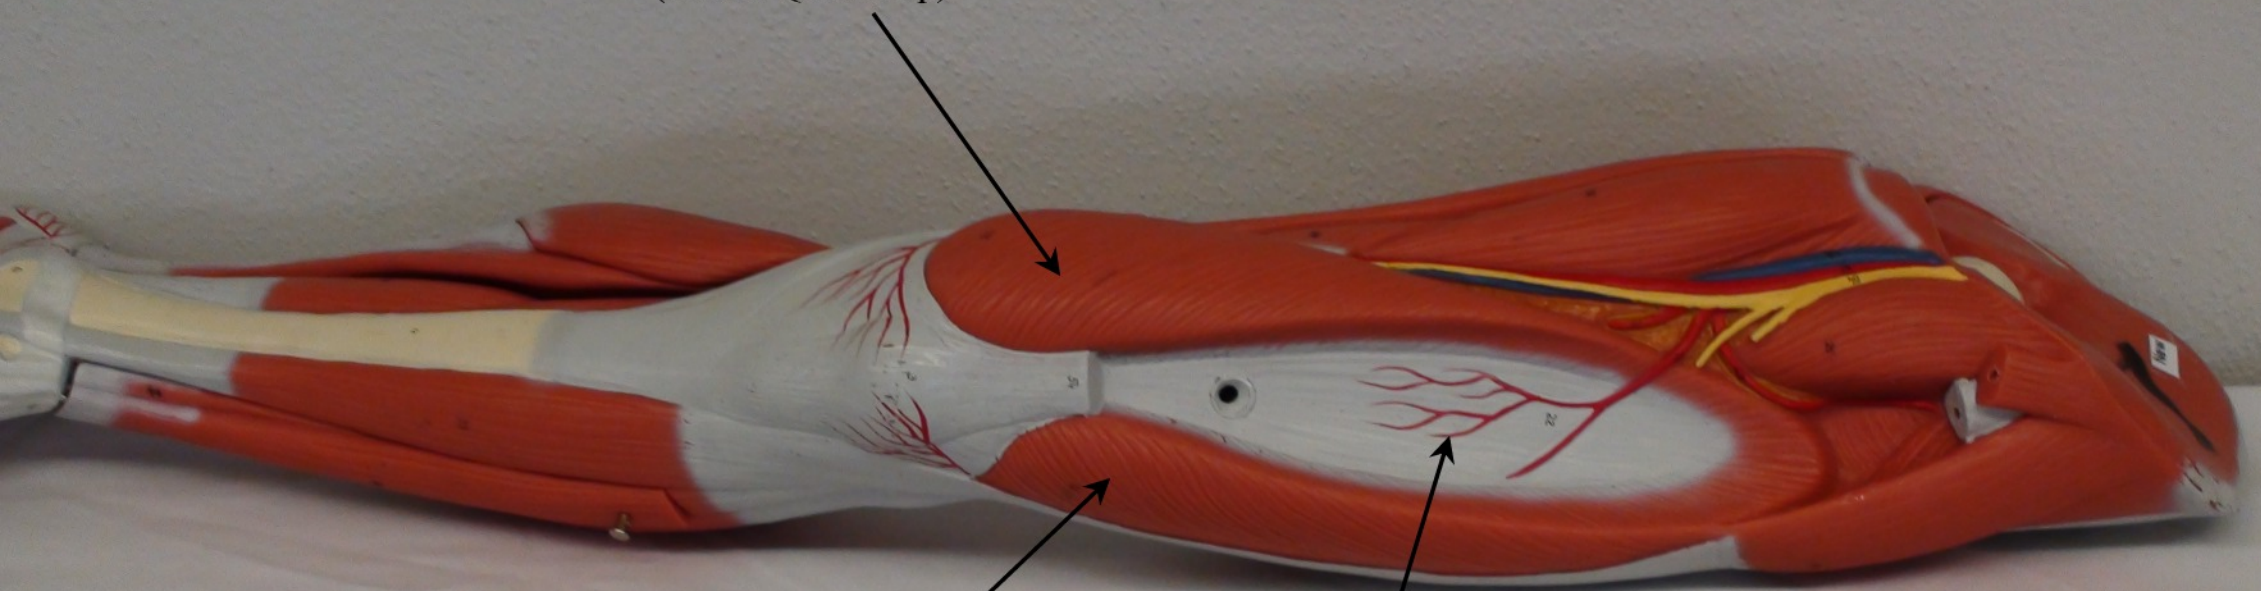

Leg

(Anterior View with Rectus femoris removed)

Vastus medialis
(medial Quadracep)

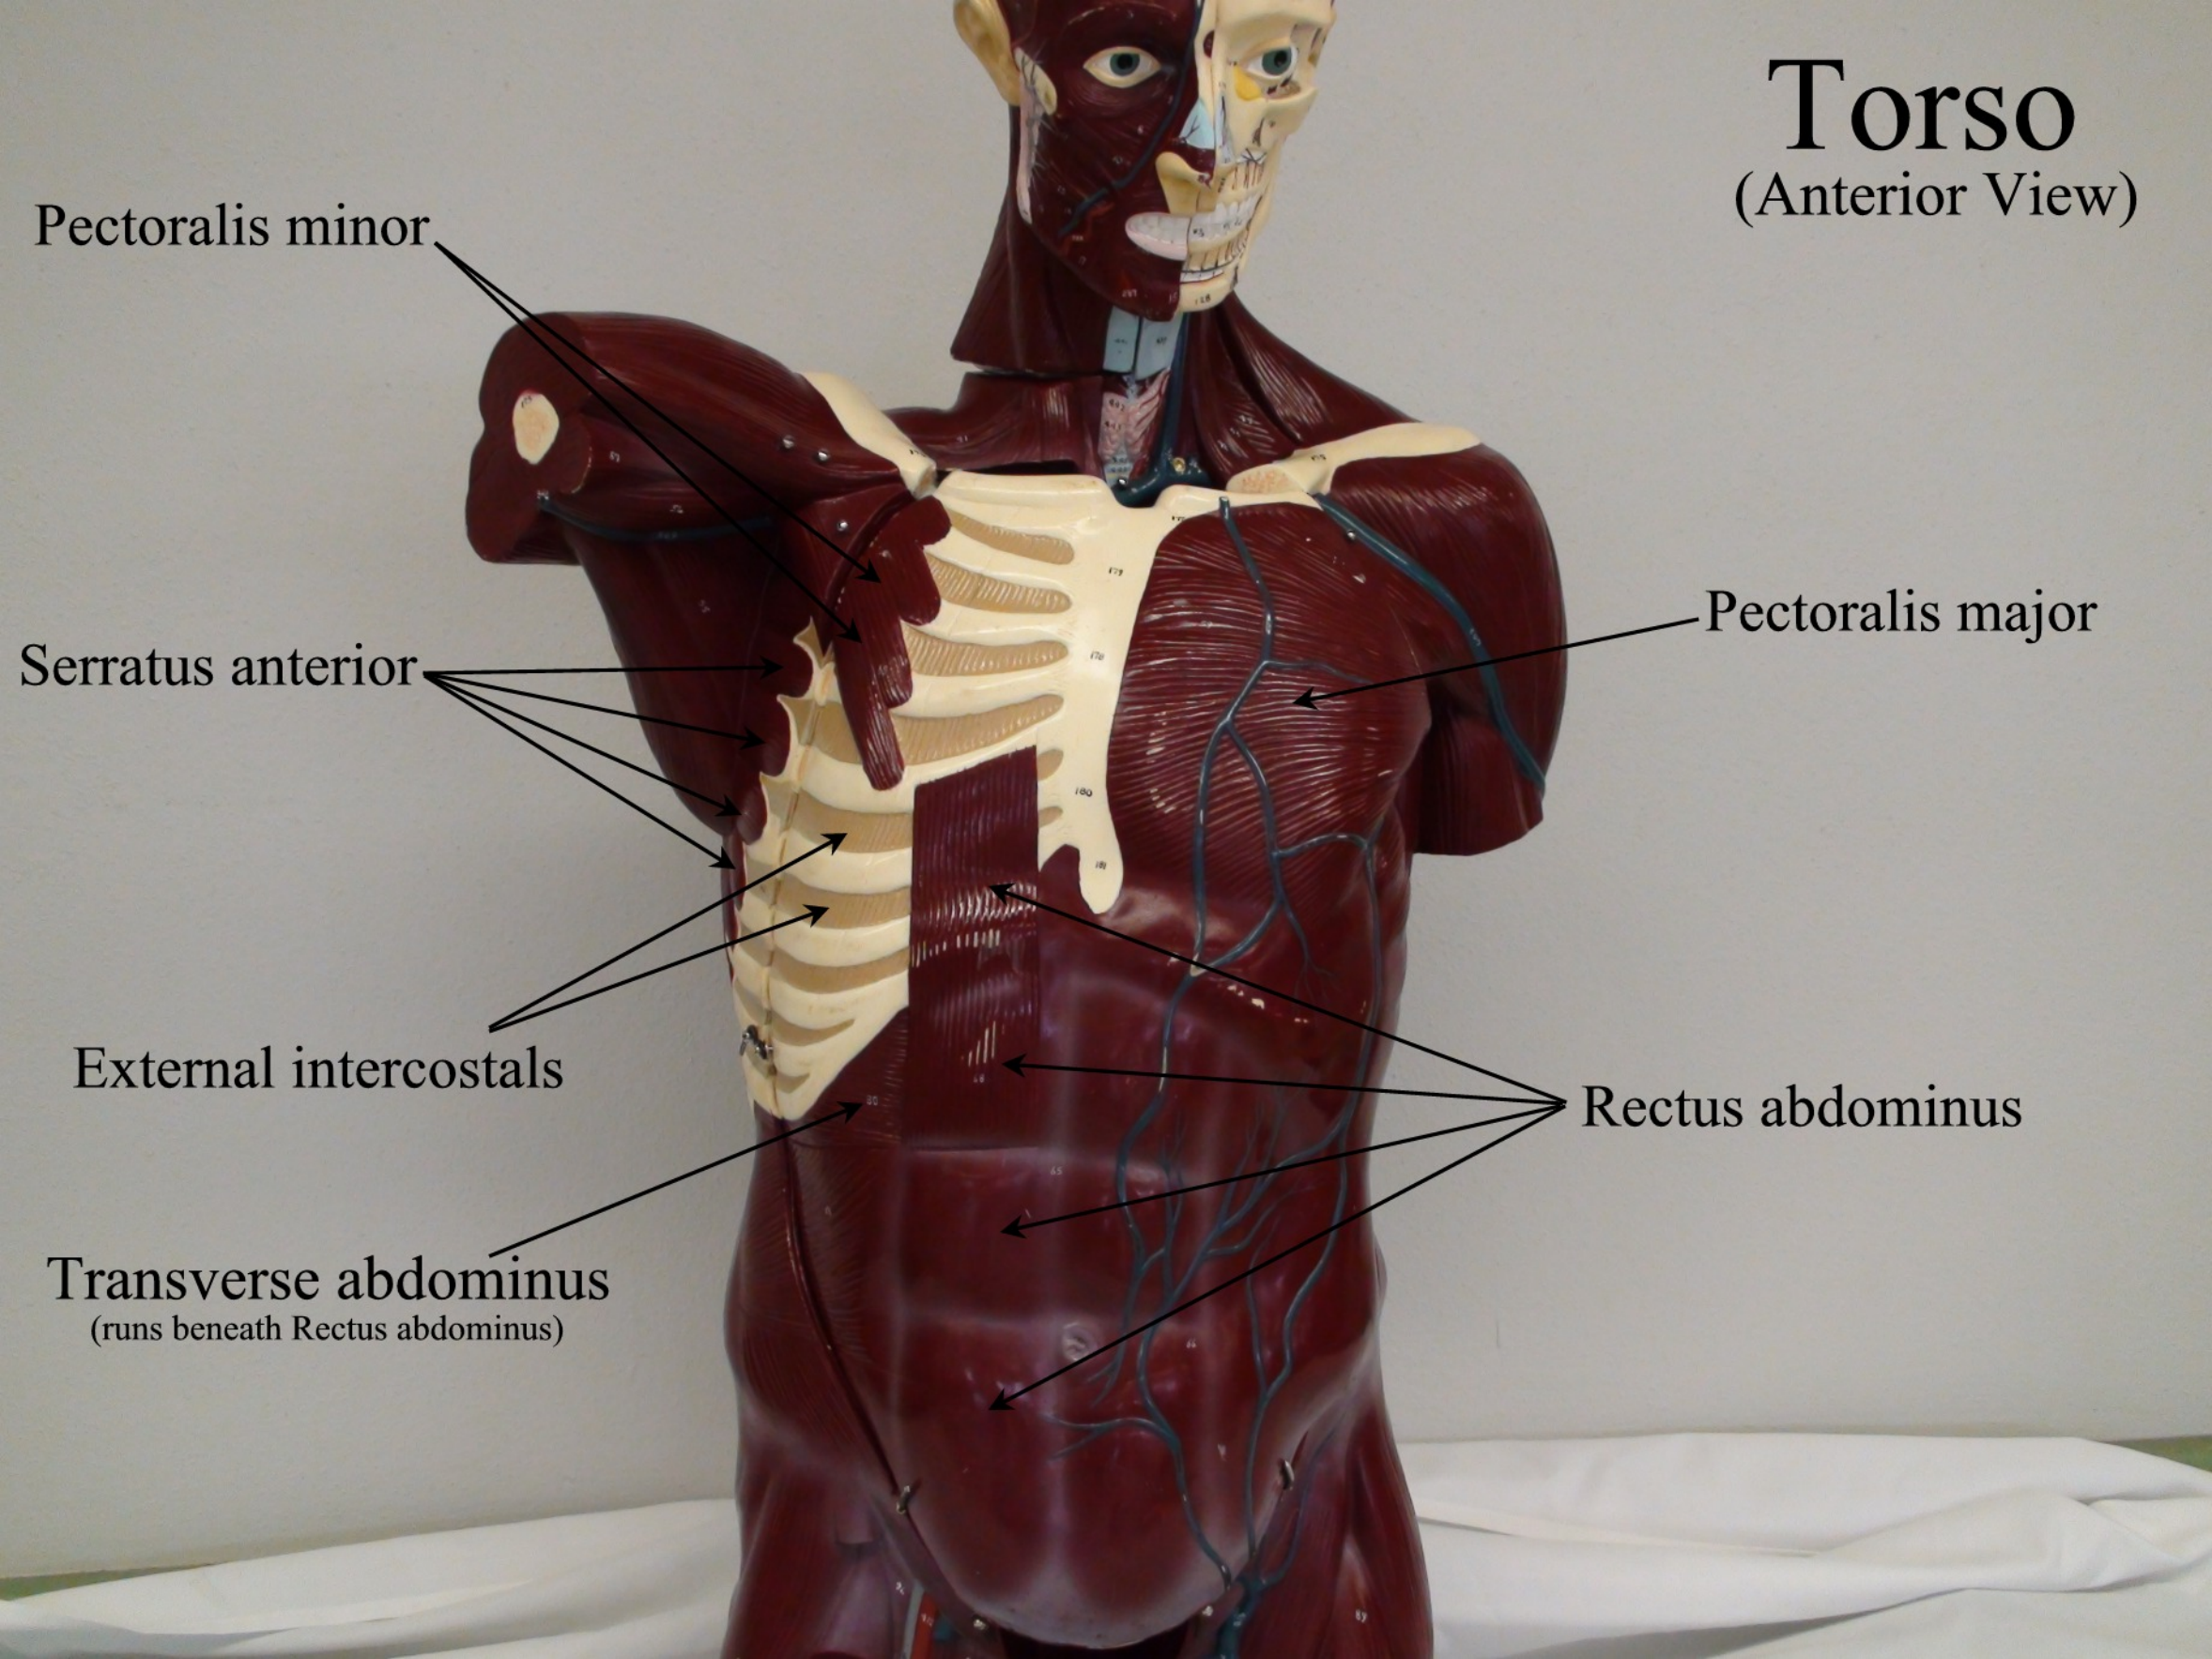

Vastus lateralis
(lateral Quadracep)

Vastus intermedius
(intermediate deep Quadracep)

Torso

(Anterior View)

Pectoralis minor

Pectoralis major

Serratus anterior

External intercostals

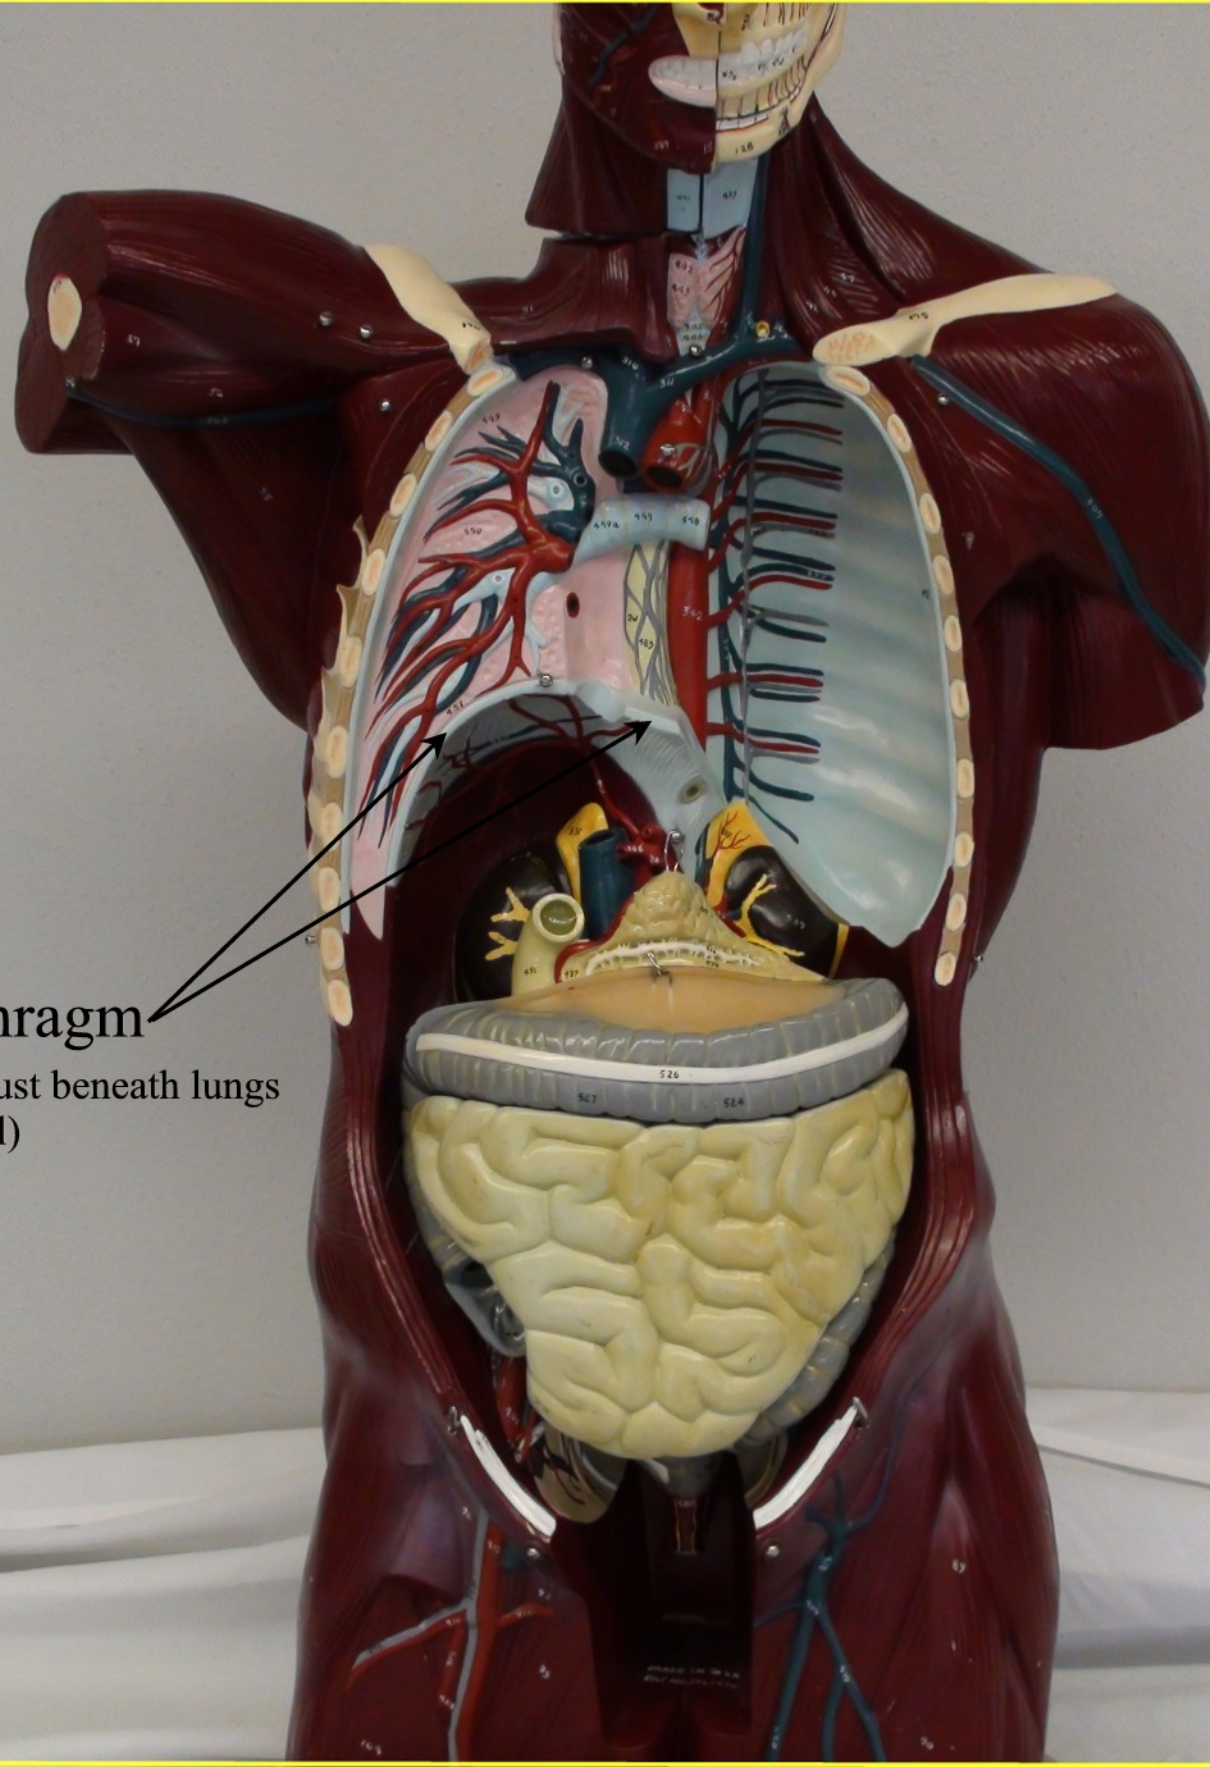

Rectus abdominus

Transverse abdominus
(runs beneath Rectus abdominus)

Torso

(Internal View)

Diaphragm
(also shown just beneath lungs
on this model)

Torso

(Posterior View)

Trapezius

Deltoid

Latissimus dorsi

Gluteus maximus
